at Our City of Toronto in Our said Province this twenty-sixth day of September in the year of Our Lord one thousand nine hundred and sixty-eight and in the seventeenth year of Our Reign.

BY COMMAND

ROBERT WELCH,
Provincial Secretary
and
Minister of Citizenship.

Tuesday, the nineteenth day of November, 1968, being the first day of the Second Session of the Twenty-eighth Parliament of the Province of Ontario for the Despatch of Business pursuant to a Proclamation of the Honourable W. Ross Macdonald, P.C., C.D., Q.C., LL.D., Lieutenant Governor of the Province.

3.00 O'CLOCK P.M.

And the House having met,

The Honourable the Lieutenant Governor then entered the House and, being seated on the Throne, was pleased to open the Session by the following gracious speech:

Mr. Speaker and Members of the Legislative Assembly of Ontario:

I extend warmest greetings and a sincere welcome to each and every one of you.

Each Session of the Legislature is an important and memorable event in the life of our province. This occasion is made particularly memorable for me because, for the first time since assuming my duties as the representative in Ontario of our beloved Sovereign, Queen Elizabeth II, I have the privilege of addressing the opening of a Session of the Legislature.

As my government convenes this Second Session of the Twenty-eighth Parliament of Ontario, the people of our province continue to enjoy a full and rich life almost unmatched in the world today. Opportunities for human betterment abound on every hand. Dynamic growth and prosperity are apparent at every turn. The quality of the social, cultural and artistic life of our people improves daily. Ontario continues to be a predominant choice of those who seek to establish new homes in a peaceful, dependable, stimulating and rewarding environment.

While we enjoy the sum of the labour of past years, the people of Ontario accept with confidence the substantial, yet exciting, challenges of the days ahead. Happily, the challenges we face are those born of success, prosperity, development and progress.

Throughout its history, and especially in recent years, my government has been privileged to play a vital and significant role in constitutional and fiscal discussions involving the federal and provincial governments of this country. My government has always viewed these events not as struggles between competitors but as joint, co-operative ventures of sovereign partners building on the wisdom of the Fathers of Confederation with one objective: a greater, stronger, more unified Canada.

My government has always sought the co-operation of the federal government in our mutual objective of assuring that the people of this province are not unduly or unfairly taxed. While our endeavours to secure such co-operation have met with little constructive response in recent months, my government expresses the hope that, in the interests of equity, fiscal stability, and national unity a more reasonable, constructive and understanding attitude toward the financial needs and constitutional position of the provinces will be recognized.

In my government's continuing recognition of its responsibilities to the people of this province, it will advance measures and propositions in the Session now beginning, designed to ensure the maintenance of a vigorous and dynamic Ontario in the context of the broader interests of Canada.

In a renewed determination to hold taxation to the minimum consistent with a high level of service to the people of Ontario, and in its firm resolve to maintain the enviable credit rating of the province, my government's comprehensive program to reduce costs and increase efficiency is being pursued with the utmost vigour. Included in the program are increased control over that portion of spending within the direct scope of the province; tighter scrutiny by Treasury Board of all matters having financial implications; re-evaluation of procedures, methods, forms and equipment; re-appraisal of existing programs; re-scheduling and deferment of new programs; and renewed emphasis on efficiency and economy in every branch and agency of the Ontario Government.

All programs financed in whole or in part by provincial taxpayers but administered by other public authorities, including municipalities, boards of education, universities, Colleges of Applied Arts and Technology, Crown corporations and other boards and commissions, will be subject to intense public scrutiny to ensure that maximum efficiency is attained.

In the Session of the Legislature upon which the House is now embarking, my government will submit in the budget statement and in other legislative proposals, measures which will reflect a determination to achieve the fullest efficiency of government and the greatest utilization of tax revenues. All current programs that contribute to the public good will be continued with undiminished vigour. New proposals are being designed to achieve a greater equity and efficiency in the administration of government, in our system of taxation, and in our relationship with our municipal partners.

My government has reviewed in substantial detail the constructive and definitive recommendations of the Honourable J. C. McRuer in his report upon Civil Rights in our province. Legislation will be introduced for the consideration of the Honourable Members which will implement several of the most basic recommendations contained in this report. In particular, a bill respecting the expropriation laws of Ontario will be brought forward for your consideration. In addition to including some of the recommendations made by the Honourable Mr. McRuer, the bill will also reflect the recommendations of the Ontario Law Reform Commission in its report upon the basis for compensation for expropriation. The legislation will be designed to ensure equity and justice for all whose lands may be expropriated or affected by land acquisition programs necessary in the public interest.

Among the measures to be placed before the Honourable Members will be proposals to institute regional government in various areas of the province where sufficient study has been completed.

To provide further equality of service throughout the province, amendments to The Assessment Act will improve the assessment function. Included will be the implementation of certain recommendations of The Ontario Committee on Taxation and The Select Committee of the Legislature on the Report of the Taxation Committee.

During the Session an opportunity will be afforded Honourable Members to give serious and responsible attention to the machinery of collective bargaining and related labour and management matters arising out of the recommendations contained in the Report of the Royal Commission Inquiry into Labour Disputes.

Honourable Members will be asked to consider legislation respecting Mechanics' Liens and the manner in which they are dealt with in the construction industry in Ontario.

To further ensure that every person in Ontario is free and equal in dignity and rights, Honourable Members will be asked to approve the strengthening of the Ontario Human Rights Code.

Honourable Members will have placed before them for approval revisions of the hearings and appeal procedures of a variety of statutes which give protection to the people of Ontario in their business transactions, both as buyers and sellers. In addition, the far-reaching and important legislation relating to business corporations, which was introduced during the First Session of the Twenty-eighth Legislature, will be brought before the House.

The availability of reasonably priced homes will continue to be vigorously pursued by my government, with further expansion of the highly successful Home Ownership Made Easy program. As further encouragement to individual home ownership and to bring home ownership within the reach of an even larger segment of our people, you will be asked to approve policies which will facilitate the construction of substantial numbers of condominium dwellings.

The goal of equality of educational opportunity will continue to be a prime objective of my government. During this Session, implementation of the legislation creating larger units of school administration will be pursued, together with consideration of the Report of the Provincial Committee on Aims and Objectives of Education in the Schools of Ontario.

Legislation will be introduced creating an Educational Communications Authority and to implement certain recommendations of the report relating to the Ontario College of Art.

My government, mindful of the continuing requirements of social services for the people of Ontario, will place before you legislation which will allow the steady development of a program to assist children with mental and emotional disorders.

Your approval will be requested for a number of additional progressive programs within the field of Correctional Services, including the establishment of a fresh approach to the counselling of families.

Placed before you for consideration will be a Health Protection Act, embodying the most modern concepts in public health legislation.

My government's vigorous programs designed to prevent and reduce abuses of our environment in the various fields of pollution will be pressed forward with the utmost determination.

The policies of my government in assisting the agricultural community of Ontario to improve both the production of food and recompense to the farmer will be pursued with continued intensity.

Among the continuing programs ensuring the steady growth and development of the communities and industries of Northern Ontario will be legislation to create a body to co-ordinate all northern transportation policies. Included will be legislation affecting the mining industry through important changes in The Mining Act and related statutes as well as a thorough overhauling and updating of legislation affecting safety requirements in the mining industry.

My government will increase its efforts to ensure that our forest industries will share in the predicted increased demand for wood and wood products. The program of acquisition of land to provide additional recreational areas, provincial parks and conservation authority facilities will be pursued with vigour.

The highly successful program to equalize industrial opportunity will continue to extend its beneficial effects throughout our province.

To fulfill the demands of the motoring public and to encourage economic development in all aspects of the province's industry, the construction and maintenance programs of the Department of Highways will be pressed forward throughout the province. Every region of Ontario benefits from its programs.

Recognizing not only the increasing complexity and severity of municipal problems, but also the dynamic opportunities that lie before our municipal partners, my government will propose a number of financial and other measures designed to be of substantial assistance.

In summary, you will have placed before you an extensive legislative program. This program is designed to further enhance and enrich the lives of all the residents of our beloved province and our beloved country while striving for attainment of the greatest possible efficiency.

May Divine Providence guide you in your deliberations.

God save the Queen and Canada.

His Honour was then pleased to retire.

4. has failed to provide educational opportunity, facilities, and financing, to insure that all Ontario students have an equal access to our educational institutions, and has failed to develop an effective policy to meet the unrest on our university campuses;
5. has failed to provide suitable programmes which would allow our agricultural community to realize their fair share of the benefits available to other segments of our economy;
6. has, by its inaction, allowed the pollution of air, water, and land to worsen;
7. has failed to insure equal access to proper medical care for all our people;

Bill 26, An Act to provide for the Control of Air Pollution from Motor Vehicles. *Mr. Shulman*.

Before the Orders of the Day Mr. Speaker referred to a matter raised yesterday respecting Questions and Ministers' Statements. To clarify the matter he read a ruling by Mr. Speaker Murdoch, dated February 15th, 1960, as follows:—

“Before the Orders of the Day, Mr. Wintermeyer, Leader of Her Majesty's Loyal Opposition, directed the Speaker's attention to two questions which members of his group had submitted to the Speaker as questions to be asked orally before the Orders of the Day. Mr. Speaker had requested the members concerned to Table these questions as Inquiries of the Ministry for publication on the Order Paper. Mr. Wintermeyer asked Mr. Speaker to advise the House as to the reason for this request.

Mr. Speaker then delivered the following ruling:—

On Thursday last, February 11th, there was some discussion relative to the procedure on questions and statements before the Orders of the Day. I therefore felt it desirable to review the rules and customs of the House applicable.

Firstly, with respect to questions, I should point out at the outset that the proper way to ask questions is to give notice thereof to the Clerk at the Table and have them placed on the Order Paper as enquiries of the Ministry, as provided in Rule 37.

The only questions that may be asked orally before the Orders of the Day are those where some urgency is evident. In such cases oral questions are permitted if they are submitted to the Speaker in writing before noon and approved by him. The question must then be asked in the words in which it has been approved by the Speaker, no preamble being admissible. This is the normal rule as to any question as Provided in Rule 37. Of course, adequate notice of such questions must also be given to the Minister concerned in order that he may prepare his answer.

Secondly, as to statements made before the Orders of the Day: By the custom of the House, Ministers of the Crown are not only permitted but indeed are expected to report to the House, from time to time, on matters within their purview, which they deem to be of particular interest and concern to the House.

A reasonable number of questions in clarification of such statements are customarily permitted.”

Mr. Speaker also referred the Members to a ruling of his own dated April 11th, 1968.

The Order of the Day for Resuming the Adjourned Debate on the motion for Second Reading Bill 5, The Expropriations Act, 1968-69, having been read,

The debate was resumed, and, after some time,

The motion having been put was declared to be carried,

And the Bill was accordingly read the second time and referred to the Legal and Municipal Committee.

Bill 17, An Act to amend The Milk Act, 1965, was then read a second time and referred to the Committee of the Whole House.

The House then adjourned at 6.05 p.m.

FOURTEENTH DAY

FRIDAY, DECEMBER 6TH, 1968

PRAYERS

10.30 O'CLOCK A.M.

On motion by Mr. Robarts,

Ordered, That the last day for depositing Private Bills with the Clerk, free of penalty, be extended to Friday, January 31st, 1969.

Before the Orders of the Day Mr. Speaker delivered the following ruling:—

On Wednesday of this week the Member for High Park requested a clarification of the rule respecting money bills and whether or not private members may introduce such bills. He raised this matter on the introduction of Bill 25, An Act to amend The Law Enforcement Compensation Act, 1967, by the Member for Sarnia.

Rule 112 provides "that the House shall not adopt or pass any vote, resolution, address or bill for the appropriation of any part of the public revenue, or of any tax or impost, to any purpose that has not been first recommended by a message of the Lieutenant Governor in the Session in which such vote, resolution, address or bill is proposed."

I suggest that the rule makes it quite clear that the proposal of such bills is a prerogative of the Crown. That this principle has been recognized by the House since its inception is illustrated by the paragraph on page 54 of Lewis' Parliamentary Procedure in Ontario, "Another exception to which private members are subject is the rule which forbids them to introduce any motion or bill calling for an expenditure of public money. Such bills can only be introduced by the Government and then only after presentation of a message from the Sovereign or his representative recommending the expenditure."

The question naturally arises, "What is a money bill?" In my years in the House my understanding has always been that a money bill is any bill which seeks to impose any tax or impost, to repeal any such tax, or to direct or re-direct any such tax or any other public money to any specific purpose. A fuller defini-

tion is to be found in May's Parliamentary Practice, 17th Edition, pages 841 to 842, but I think a fair summary is that any bill, the real purpose of which is to raise, repeal, abate or direct the appropriation of the public revenue is a money bill.

Referring to specific bills, each bill must be examined on its own merits to determine whether or not it is, in fact, a money bill. The mere fact that the Act which it seeks to amend is itself a money statute does not necessarily mean that the amending bill must be so classified. If the amended bill does not seek to raise, repeal, lower or direct the funds administered by the Act, it is not a money bill.

Now, referring specifically to Bill 25, An Act to amend The Law Enforcement Compensation Act, 1967, introduced by Mr. Bullbrook, while I recognize some merit in the argument that the proposed amendment is procedural, I am of the opinion that its effect is to direct the payment of the awards under the Act and, in fact, enlarge the class of persons eligible for such awards. For this reason, I have come to the conclusion that the proposed amendment is a money bill and cannot be introduced by a private member. I, therefore, declare the bill Out of Order and direct that the Order for Second Reading be discharged.

The following Bills were introduced and read the first time:—

Bill 28, An Act to amend The Pounds Act. *Mr. Deacon.*

Bill 29, An Act respecting Impaired Drivers. *Mr. Shulman.*

The debate concluded on the adjournment of the House.

SIXTEENTH DAY

TUESDAY, DECEMBER 10TH, 1968

PRAYERS

2.30 O'CLOCK P.M.

On motion by Mr. Rowntree,

Ordered, That on Friday, December 13th, and Friday, December 20th, the House will meet at 10.00 a.m.

The following Bills were introduced and read the first time:—

Bill 32, An Act to amend The Employment Standards Act, 1968. *Mr. Davison.*

Bill 33, An Act to amend The Highway Traffic Act. *Mr. Shulman.*

Before the Order of the Day Mr. Speaker delivered the following ruling:—

On Friday last a question was raised as to whether or not a bill respecting impaired drivers is *intra vires* of the Province. The Speaker and the Clerk referred this question to the office of the Legislative Counsel for an opinion, which has now been received. I quote from that opinion as follows:—

“The Provinces of Alberta and Saskatchewan have both had legislation including the principles contained in the Bill ruled *intra vires*. The Alberta legislation by the Alberta Court of Appeal and the Saskatchewan legislation by the Supreme Court of Canada. Without going into an analysis of these cases, in my opinion, the above decisions form a firm enough basis to give the Bill a reasonable chance of success in court. (Reference re section 92 (4) of the Vehicles Act Saskatchewan 1958 SCR 608, Regina v. Tenta 67 DLR (2d) (1968) 536.)

The practice of this office has been to advise on constitutional risks but not to put up any barriers to legislation proceeding where constitutional doubts exist. To do so would amount to a judicial predetermination before a Bill is even considered by the House, and the field is a very complex and shifting one. It should be open to the Legislature to test constitutional questions by passing legislation and it is the function of the judiciary only, to finally determine the questions. An *ultra vires* Act must be observed until it is set aside by a court (Rex v. Lessard (1940) 1 DLR 128).”

To summarize the foregoing, the reasonable position appears to be that the question of *vires* is one for the Courts and not to be predetermined by the Legislature. This situation is, of course, very different from a case where the proposed bill infringes one of the specific Rules of the Legislature. In such a case it is not a question of constitutional jurisdiction, but simply of compliance with the Rules of the Assembly.

The following Bills were read the second time and referred to the Committee of the Whole House:—

Bill 16, An Act to amend The Ontario Hurricane Relief Fund Act, 1955.

The Order of the Day for Second Reading of Bill 23, An Act to amend The Damage by Fumes Arbitration Act, having been read,

The relevant part of Rule 37(a) reads—"Questions may be put to Ministers of the Crown relating to public affairs; and to other Members relating to any *bill, motion, or other public matter connected with the business of the House with which such Member may be concerned*". It is, therefore, my view that such questions can be asked of Private Members, subject to the Speaker's Ruling in each case as to whether or not it pertains to a public matter connected with the business of the House, in which the Member is concerned.

With respect to Private Notice Questions asked orally before the Orders of the Day, it was my understanding last Session that the custom of the House is that such Questions must be directed only to the Ministry."

THIRTY-NINTH DAY

TUESDAY, FEBRUARY 25TH, 1969

PRAYERS

2.30 O'CLOCK P.M.

Mr. Speaker delivered the following ruling:—

Some days ago, certain Members of the House have risen with enquiries concerning the powers and duties and responsibilities of Committees of the House, particularly with respect to the Committees' powers and procedures to pursue matters whether referred expressly to the Committee by the House or not and with respect to the summoning of witnesses to give evidence before the Committee. There would appear to be little difficulty in this regard with respect to Select Committees as normally the exact powers and terms of reference of such a Committee are set out in a resolution to establish the Committee.

Committees of the House are, of course, only emanations of the House and have only such powers and duties as are given them by the House. Their terms of reference, that is to say the matters with which they are entitled to deal, are only those which are referred to them by the House. Standing Committees are set up by an Order early in the Session which clearly states "which said Committees shall severally be empowered to examine and inquire into *all such matters and things as may be referred to them by the House* and to report from time to time their observations and opinions thereon, with power to send for persons, papers and records". Standing Committees, therefore, are established only to deal with those matters referred to them by the House. However, for the past decade or more, it has been the practice for such Standing Committees to institute programmes for the information or instruction of their members by hearing from departmental officials and other persons having specialized knowledge. Moreover, such Committees have often heard deputations and delegations from various groups who have asked to appear before such Committees. These programmes are for the purpose of enlarging the knowledge of the Members in

various fields related to government and public affairs of the Province. All these matters are, of course, outside the Committees' strict legal functions and terms of reference and do not entail any obligation to report thereon to the House. Any person appearing before the Committee in connection with such programme does so voluntarily on the invitation of the Committee. The instigation and carrying on of such a programme does not, however, give the Committee any right to initiate inquiries or investigations unless specifically ordered by the House.

With respect to the question of calling witnesses to give evidence before a Standing Committee, the Order of the House above quoted gives the Committee "power to send for persons, papers and records". This power, of course, relates strictly only to "all such matters and things as may be referred to them by the House". The procedure under this Order is for the Clerk of the Committee to write to the witness, summoning him to appear before the Committee at a stated time and, if necessary, to bring with him any documents in his possession relating to the matter with which the Committee has been charged by the House. Should the witness not reply to the invitation of the Clerk to appear before the Committee, the Committee informs the House of the refusal or neglect, and the House may, if it sees fit, order the attendance of such witness. In this case, the Speaker is empowered by subsection 2 of Section 35 of The Legislative Assembly Act to issue his warrant directed to the witness. Such warrants are only issued, however, by Order of the House.

In the case of a Select Committee which is given authority to sit in the interval between Sessions, it is the practice in the Order establishing the Committee for the House to give Mr. Speaker blanket authority to issue his warrant or warrants for the purpose of summoning witnesses, so that recourse may be taken to this procedure if it becomes necessary, even though the House is not sitting to make the necessary Order.

I am sure that with this guidance and the assistance of the Clerk of the Assembly, Standing Committees of the Legislature will have little difficulty in formulating and following proper practices and procedures with respect to their duties, responsibilities and powers.

Mr. Lawrence (Carleton East), from the Standing Private Bills Committee, presented the Committee's Fifth Report which was read as follows and adopted:—

Your Committee begs to report the following Bills without amendment:—

Bill Pr14, An Act respecting the County of Ontario.

Bill Pr17, An Act respecting the County of Peel.

Your Committee begs to report the following Bill with certain amendments:—

Bill Pr32, An Act respecting McMaster University.

On motion by Mr. Potter, seconded by Mr. Belanger,

Mullner of the Ontario Hospital, Brockville, be Ordered to attend before the Standing Health Committee to give evidence with respect to allegations made by him concerning the Staff at the Hospital and to produce all such papers and things as may be relevant thereto, and that, for this purpose, the Speaker do issue his Warrant.

Also, That, the Committee be authorized to sit while the House is sitting, to hear the above-mentioned evidence, if the Committee finds it necessary so to do.

That the Motion for an Address in Reply to the Speech of the Honourable the Lieutenant Governor now before the House be amended by adding thereto the following words:—

“But this House regrets that the government:—

1. has failed to conduct the Province's financial affairs responsibly, and neglected to cause an independent and all-embracing study of its programmes and administrative procedures to be made;
2. has failed to protect tenants' rights and to insure adequate housing for the people of Ontario at a fair price, including a system of permissive rent control;

FORTY-FIFTH DAY

WEDNESDAY, MARCH 5TH, 1969

PRAYERS

2.30 O'CLOCK P.M.

Before the Orders of the Day, Mr. Speaker delivered the following ruling:—

Yesterday, the Honourable Member for Sudbury raised what in effect were several points of privilege in which he was joined by the Honourable Members for Sarnia and Scarborough West. Since then the Honourable Member for Sudbury has clarified in writing to me his point of privilege as follows: "you *alone* are the custodian of this House and its appointments and appurtenances and you cannot surrender them to Leaders of Parties or anyone else. You determine the conditions under which the CBC comes in here and with respect you must do so with the consent of the Members."

However, the Honourable Member's submission was originally in much wider terms and I would propose to deal with both the general proposition originally expounded by him in the House and with his specific submission quoted above.

As the Honourable Members have rightly pointed out, the position in the British Parliamentary Institution upon which our Ontario Parliament is patterned, has changed, even been reversed, as the centuries have passed. From his first position as the Sovereign's appointed "watch dog", Mr. Speaker has now become Parliament's elected Chairman and the arbiter and defender of the rights and privileges of the Members, being also charged with ensuring that the Members' responsibilities are by them properly accepted. In this latter capacity, he acts with the consent and approval of the Members or a majority of them and it is interesting to note here that in such capacity his responsibility also extends to protecting either individual Members or the majority of the Members from improper exercise or abuse of privileges and rights by any individual Member. The reverse, of course, is also his duty.

In the performance of his duties as Chairman of the Assembly, Mr. Speaker necessarily follows the Rules and Precedents of the House and rulings of previous Speakers. The arrangement of the Government business on any day is governed by the House Leader. When a radical departure from the existing practice of the House is announced by the Government House Leader, Mr. Speaker is entitled to assume that such arrangement has been discussed with the Party Leaders or Party Caucus Leaders and represents the view of the Members or of a majority thereof. It is, of course, open to any Member to question the House Leader or to urge another course of action.

This brings me to the written submission of the Honourable Member for Sudbury quoted above. A perusal of the record of the proceedings of this House on Monday evening last indicates that the Prime Minister, then acting as Government House Leader, advised the House of arrangements for televising the Budget Address of the Treasurer on the following afternoon. At that time, of

course, it would have been quite proper for the Honourable Member for Sudbury (who I believe was then in the House) to rise on the point of privilege raised by him yesterday. At that time the matter could have been settled by the Members. No such point was raised by any Member and Mr. Speaker, therefore, was then, and still remains, of the opinion that the Members or a majority of them, were agreeable to this radical change in the proceedings of the House.

And finally, it is my opinion that the re-arrangement of which the Honourable Member complains, did *not* infringe or interfere with the rights and privileges (as such Member) of any Member of this Assembly.

Answers to Questions Nos. 8, 15 and 16 were Tabled. (*See Hansard.*)

The Order of the Day for resuming consideration of the Propositions of the Government of Ontario submitted to the Continuing Committee of Officials on the Constitution, as of December, 1968 (*Sessional Paper No. 83*) having been read,

The debate was resumed and, after some time, it was, on motion by Mr. Wishart,

Ordered, That the debate be adjourned.

FIFTY-FIFTH DAY

WEDNESDAY, MARCH 19TH, 1969

PRAYERS

2.30 O'CLOCK P.M.

The following Bill was introduced and read the first time:—

Bill 92, An Act to amend The Insurance Act. *Mr. Rowntree.*

Before the Orders of the Day, Mr. Speaker delivered the following ruling:—

Last week the Member for Sarnia directed a question to me as to when a division actually occurs. Lewis' Parliamentary Procedure in Ontario, at page 85, makes it quite clear that the actual division is when the Members stand to record their votes for or against the question. This is supported by May's Parliamentary Practice, 17th Edition, at page 422, which states that the division occurs when the Members separate into the two lobbies for the purpose of being counted, for and against the question.

I believe the Member's confusion arises from the wording of Clause (a) of Rule 107, which states "Upon a Division, the Yeas and Nays shall not be entered upon the minutes, unless demanded by five members". This appears to contemplate that after the division takes place, it will not be recorded unless five Members so request. However, the application of this Rule that, to the best of my knowledge, has always been followed in this Legislature, is that the division itself does not take place unless requested by five Members, and if so requested, is recorded. Clause (a) then goes on to provide that on motions to adjourn the House or the debate only the numbers are recorded. It should be noted here that when the House is in Committee a division is not recorded for the reason that only the Committee's Report is recorded. I suggest that Clause (a) of Rule 107 should more properly read — "the Ayes and Noes shall not be entered upon the Minutes unless a Division is demanded by five Members; and on questions of adjournment of the House or of the debate, the numbers only shall be entered".

I believe the Member's primary concern is with the application of Clause (b) of Rule 107, which says — "on the question being put every Member in the Chamber, with the exception of the Speaker, must record his vote". As the whole of Rule 107, along with Rule 106, deals with divisions, it appears obvious that Clause (b) refers to the putting of the question after the division has been called. The Clause obviously refers to a division and provides that every Member in the Chamber when the question is put *at the time of the division* must vote.

The House resolved itself into a Committee to consider certain Bills and, after some time therein, Mr. Speaker resumed the Chair, and the Chairman reported,

Bill 103, An Act to amend The Land Titles Act. *Mr. Wishart.*

Before the Orders of the Day, Mr. Speaker delivered the following ruling:—

This morning, Mr. Ferrier, the Member for the Electoral District of Cochrane South, consulted me with a view to moving the adjournment of the House today, to discuss as a matter of urgent public importance, the fear of the people in his electoral district that the proposed smelter of Texas Gulf Sulphur Company, processing the ore from the Kidd Creek Mine, may be located elsewhere than in the Timmins area.

While I am very sympathetic to this proposal and agree that it is of public importance to the area in question, and perhaps to all of Ontario, I was reluctantly compelled to rule it out-of-order, as not complying with the existing rule and precedents. One of the established requirements for such a motion is that the matter to be debated must be a specific matter of recent occurrence. Mr. Ferrier and Mr. Renwick, the Member for Riverdale, who advised him, agreed that there had been no recent occurrence which would meet this requirement.

On appeal, the Speaker's ruling was sustained on the following division:—

SIXTIETH DAY

WEDNESDAY, MARCH 26TH, 1969

PRAYERS

2.30 O'CLOCK P.M.

Before the Orders of the Day, Mr. Speaker addressed the House as follows:—

“Yesterday the Honourable Member for Scarborough Centre rose on a point of Order with respect to an incident that afternoon at the main entrance to this building.

I have now had the opportunity of investigating the matter and have received reports from the Corporal in charge of the O.P.P. Detachment in the Buildings and from the Executive Officer from the Prime Minister's Department who also was present. It appears that some 40 Humane Society officials or officers bearing petitions for presentation to the Prime Minister were met at the main door by Mr. Wm. Kinmond from the Prime Minister's office. Apparently there was no prior notice of this delegation and it was necessary to arrange a suitable place for the Prime Minister to receive the delegation. It appears then that Mr. Kinmond asked two or three members of the delegation to accompany him in order that necessary arrangements could be made and requested the others to wait entry until he returned for them to be conducted to the reception area.

It further appears that the members of our O.P.P. then on duty at the main entrance to the Building following Mr. Kinmond's suggestion, which was concurred in by the delegation, stood in the doors which may have in some measure impeded entrance by visitors, Members and the public.

I am advised further, however, that at no time during the incident were the doors locked nor anyone denied entrance, which would seem to be substantiated by the entrance to the Building of the Honourable Member herself.

I am further advised that room 263 was made available to the delegation who then entered and were received by the Prime Minister.

From this it is apparent to me that there really was no denial to the citizens of our Province, including members of the delegation in question, of the right of free entrance to our Parliament Buildings. Rather was it an honest attempt to arrange an orderly reception by the Prime Minister of the delegation.

I have, however, made it abundantly clear to the officer in charge of the Parliamentary Detachment O.P.P. (who I may say have been serving us in a most excellent and exemplary manner) that except in most exceptional circumstances, which do arise from time to time, the Parliament Buildings are open to the public."

The House resolved itself into a Committee to consider certain Bills and, after some time therein, Mr. Speaker resumed the Chair, and the Chairman reported,

“As has been explained on many occasions in the House, the only questions contemplated by our rules are the written questions which appear on the Notice Paper. The putting of oral questions before the Orders of the Day on private notice is a practice of long standing, which has the authority of precedent and approval by the House, and the procedure on such questions has also been well established by practice and precedent. When Mr. Speaker or the Minister to whom the question is directed is of the opinion that the question is not a proper one to be answered orally before the Orders of the Day, the Speaker or the Minister, as the case may be, may require that the question be placed by the Clerk on the Notice Paper as a written question. This may be for any number of reasons, such as that the answer is too voluminous or too statistical to be given orally or that the subject matter is not sufficiently urgent. The discretion of a Minister in this matter is analogous to the discretion given him by Rule 37 (c) under which he may in the case of a *written* question when the answer would require any statements of facts or records or statistics of a lengthy or voluminous nature, or other material which in the opinion of the Minister should be made the subject of a Return, instead of answering the question, require a motion be made for a Return.”

The following Bill was introduced and read the first time:—

Mr. Dymond.

Objection having been taken that no notice of the Bill had been given, Mr. Speaker pointed out that the First Reading had already been given. However, because of the importance of the subject matter and the vigor of the objections, the First Reading of the Bill was rescinded by unanimous consent of the House and notice was given for introduction of the Bill after the Easter Recess.

PRAYERS

2.00 O'CLOCK P.M.

Mr. Dymond moved,

That leave be given to introduce a Bill entitled An Act to amend The Medical Services Insurance Act, 1965.

Mr. MacDonald then moved in amendment, seconded by Mr. Lewis (Scarborough West),

That all words from the first "That" to the end of the Question be deleted, and the following words substituted therefor, "this House, recognizing the embarrassment to which the government are admittedly exposed in the framing

and conduct of the unilateral increase in fee schedule set out by the Ontario Medical Association, and owing to the absence of any effort on the part of government to roll back medical fees in a manner consistent with public policy, declines to give leave for the introduction of a Bill to amend The Medical Care Insurance Act.

Mr. Speaker ruled the proposed amendment out of order on two counts, namely:—

1. The motion for leave to introduce and first reading is, by the practice of this House, one motion and not divisible, which must be decided without debate or amendment.

2. The form of the proposed amendment makes it a mere negation of the main motion, which cannot be accomplished by an amendment. The correct way to seek such a negation is simply to vote against the motion.

The motion for introduction and first reading was then carried on the following division:—

Before the Orders of the Day, Mr. Speaker delivered the following ruling:—

On Thursday, April 3rd, the Member for Downsview suggested that there might be precedent for the proposition that a bill having been withdrawn could not be reintroduced at the same Session. A very careful examination of the authorities and precedents fails to disclose even a suggestion of such a proposition. On the contrary, the authorities are unanimous that a bill may be withdrawn at any stage with the consent of the House and reintroduced in similar or different form and that this holds true even if the principle of the bill has been dealt with at the second reading stage. This conclusion was reaffirmed by Mr. Speaker Parliament on Thursday, March 31st, 1921, after a review of the precedents.

The case before us, of course, is much simpler, in that the bill has not yet been given any consideration by the House.

The debate was resumed and, after some time,

Mr. Renwick (Riverdale) moved, seconded by Mr. MacDonald, That the motion for second reading of Bill 121, entitled An Act to amend The Medical Services Insurance Act, 1965, be amended by deleting all the words after "that", and substituting therefor the words:—

"this bill be not now read a second time, in order that:

- (1) the Government reject the principle implicit in the Bill that the Ontario Medical Association may unilaterally increase the fees for medical services, thereby forcing the Government to provide for payment of

90 per cent of such fees charged in accordance with the O.M.A. fee schedule;

- (2) the medical profession, already the highest paid in the province, with an average income in excess of \$30,000 annually, be not further provided with large sums of public money through the vehicle of the Ontario Medical Services Insurance Program without negotiation;
- (3) the Government may introduce alternative legislation rolling back the fees for medical services to the level in effect prior to April 1, 1969;
- (4) in all dealings with the medical profession, in the matter of fees for services provided, the principle of public accountability be established by requiring the College of Physicians and Surgeons and the Government jointly to negotiate and agree upon any alteration to the existing fee schedule;
- (5) the public interest shall be further protected by ensuring that such negotiations be instituted through the forum of the Standing Committee on Health of this Legislature".

The debate continued and, after some time, Mr. Speaker ruled that clauses 1 and 2 of the proposed amendment were out of order on the grounds that they were a mere negation of the motion for second reading of the Bill, but that clauses 3, 4 and 5 were in order and consequently should be renumbered as clauses 1, 2 and 3 respectively.

The debate continued further and, after some time,

Mr. Speaker put the Question as to whether the word NOW and other words sought to be struck out should stand, which Question was decided in the affirmative on the following Division:—

SEVENTY-EIGHTH DAY

WEDNESDAY, APRIL 30TH, 1969

PRAYERS

2.00 O'CLOCK P.M.

Before the Orders of the Day, Mr. Speaker addressed the House as follows:—

Last evening, while a vote was being taken on a Division with respect to the Second Reading of Bill 111, the Honourable Member for High Park, being in his seat, declined to vote, and, by way of explanation, stated that when the Division had been called and the Division Bells started to ring, he had been on his feet on a point of Order and that he was not recognized by Mr. Speaker and therefore that the entire voting procedure was not in accordance with the Rules and, therefore, he was not required to vote.

I directed that the vote be continued by the Assistant Clerk of the House and that the Honourable Member for High Park, declining to vote, be recorded as voting against the motion before the House.

Upon the conclusion of the vote and the announcement of the result by the Assistant Clerk of the House, which was in the affirmative and the Second Reading of the Bill, the Honourable Member from High Park then explained his position and put forth his point of Order, namely that Mr. Speaker had not given him the opportunity to be heard on his point of Order before the Division was called. Since the Honourable Member for Waterloo South, Chairman of the Committee of the Whole House, was in Mr. Speaker's chair at the time the Division Bell started and the Division was called, I stated that I would be glad to and would, in fact, hear the tape of the part of the Evening's Proceedings in question and consult the Rules and Precedents of the House and deal with the matter the following day. At this point, the Honourable Member for Humber rose in his place on the point of Order and pointed out to me that there was no need for such procedure on the part of Mr. Speaker since no Member can be heard in the House unless he catches the eyes of Mr. Speaker, is recognized, and given the Floor. This obviously had not occurred so far as the Honourable Member for High Park at the time in question was concerned and therefore the Honourable Member had no point of Order and Mr. Speaker had nothing to investigate and report upon. I felt that under the circumstances, since I had not been in the House at the time the Division was called and the Bells started ringing, I should investigate the matter as I previously mentioned and report to the House.

I have now listened to the tape of that part of the Proceedings last evening which was brought into question by the Honourable Member from High Park and I must confess that it does not give me much assistance because there apparently was a very considerable amount of confusion and noise in the House at that particular time.

However, I would point out to the Members, as was mentioned by the Honourable Member for Humber last evening, that a Member of the House gains the Floor of the House only by recognition by Mr. Speaker and this, I

believe, is known by every Honourable Member in this House, including those to whom I have referred. The contention that the failure of the Chair to recognize the Honourable Member somehow invalidates the voting procedure is not tenable.

I have discussed the matter with the Honourable Member for Waterloo South and he confirms that the Honourable Member from High Park did not catch his eye nor was he recognized or given the Floor by the Honourable Member for Waterloo South, then in Mr. Speaker's chair, prior to the Division being called and the Division Bells started ringing.

As a consequence, therefore, the Honourable Member for High Park's point of Order is not well taken and is itself out of Order.

The following Bills were read the second time and referred to the Committee of the Whole House:—

Bill 102, An Act to amend The Registry Act.

Bill 103, An Act to amend The Land Titles Act.

Mr. Nixon sought to move, seconded by Mr. Singer,

That this House do now adjourn to consider a matter of urgent public importance, namely the matter of the resignation of officials of the Indian Development Branch of the Department of Social and Family Services which took place today.

Mr. Speaker ruled the motion out of order on the ground that, considering the information available to him at the moment, the subject matter, while of public importance, was not of sufficiently urgent public importance to warrant debate at this time.

On appeal, the Speaker's ruling was sustained on the following division:—

As soon as Mr. Speaker had called the Orders of the Day, Mr. Pitman moved, seconded by Mr. MacDonald,

That this House adjourn immediately to reconvene later this day on the ringing of the bells to give Mr. Speaker the opportunity to consider the question of privilege raised by the Member for Riverdale, namely, that the Minister of Social and Family Services permitted his estimates in the amount of 264,789,000 to be approved by this House on Tuesday evening May 13th, when he was fully aware, after the debate in this House on the Vote of the Indian Community Development Board, and being in receipt of a memorandum signed by the Director and eight members dated May 11th, delivered by hand on May 12th, that the resignations of the entire Branch were imminent.

Mr. Speaker expressed doubt as to the motion but permitted it to be debated.

After some time it was defeated on a vote of 24 to 40.

NINETY-FIRST DAY

TUESDAY, MAY 20TH, 1969

PRAYERS

2.00 O'CLOCK P.M.

Before the Orders of the Day, Mr. Speaker delivered the following ruling:—

On Friday last, Mr. Renwick, the Honourable Member for Riverdale, rose on a point of privilege; such point being that the Honourable Minister of Social and Family Services during the consideration of the Estimates of his department for the fiscal year 1969-70, misled the House. I advised the Honourable Member and the House that I would take the matter under consideration and report to the House.

This I have done; I have perused the pertinent Hansard records; I have had the opportunity of discussing it with both the Honourable Member for Riverdale and with the Honourable Minister; I have consulted the appropriate authorities.

I can find that no privilege either of the Honourable Member for Riverdale, or of the House has been breached and my report to the House, and my ruling, is that the point of privilege taken by the Honourable Member for Riverdale is not well founded and cannot be entertained.

The House, according to Order, resolved itself into the Committee of Supply.

(In the Committee)

Resolved, That there be granted to Her Majesty, for the services of the fiscal year ending March 31st, 1970, the following sum:—

DEPARTMENT OF MINES

Eleventh Report of the Ontario Parks Integration Board for the period ending December 31, 1967 (*No. 70*).

The House then adjourned at 11.10 p.m.

NINETY-SECOND DAY

WEDNESDAY, MAY 21st, 1969

PRAYERS

2.00 O'CLOCK P.M.

The following Bill was introduced and read the first time:—

Bill 162, An Act to amend The Schools Administration Act. *Mr. Reid* (Scarborough East).

Before the Orders of the Day, Mr. Speaker delivered the following ruling:—

Yesterday, the Honourable Member for York South, Mr. MacDonald, rose on a point of Order with respect to Mr. Speaker's ruling concerning debate on the so-called "Hoist Amendment" to the Motion for Second Reading of Bill 138. The Honourable Member quoted to Mr. Speaker and the House the Hansard report of the statements by Mr. Speaker Morrow and the written ruling recorded in the Journals of 1965, at page 174, and dated June 21st, indicating in the view of the Honourable Member from York South that Mr. Speaker had given a ruling in direct contradiction of that previous ruling by Mr. Speaker Morrow.

There was also some discussion as to matters of research and at that time, I stated that the research by the Honourable Member for York South was undoubtedly better than that of Mr. Speaker. However, I would point out to the Honourable Member for York South and the House that, at the time of my ruling with respect to the matter, there had been no opportunity for research as the amendment in question was made without notice to Mr. Speaker and therefore my opinion and ruling was given extemporaneously without the opportunity for research.

I have now carefully perused the written records, in both Hansard and the Journals of this House, of the opinion and ruling of Mr. Speaker Morrow previously referred to. I would submit that the ruling given by me last week is not inconsistent with the ruling of Mr. Speaker Morrow. The words of Mr. Speaker Morrow as recorded were in part as follows: "that after the motion to strike out the word 'now', etc., the General Debate *continues on that proposed amendment* until its conclusion." Mr. Speaker Morrow then proceeded to make further observations as recorded in Hansard but these, of course, were not part of his ruling. However, I must advise the Honourable Member and the House that in any event, I see nothing which is inconsistent in these remarks with the ruling made by me last week that the debate continues on the Hoist Motion since it would indeed be difficult to debate the affirmative for such a motion, namely that the Bill should be hoisted, without reference to the principle of the Bill to indicate why it is thought to be a bad Bill and should be hoisted. Conversely, it would be difficult to argue the negative without discussing the

principle in order to indicate why it is important not to hoist the Bill but to proceed with the Second Reading *now*. This, in my recollection and review of Hansard of last week, is precisely what was allowed by me in the debate and, therefore, it does appear to me that the debate in question was in no way restricted as contended by the Honourable Member for York South.

On motion by Mr. Dymond,

Ordered, That the Order for Committee of the Whole House on Bill 138, An Act respecting Facilities for Children suffering from Mental or Emotional Disorders, be discharged and that the Bill be referred to the Standing Health Committee.

The House resolved itself into a Committee to consider a certain Resolution and certain Bills.

After some time Mr. Speaker resumed the Chair, and the Chairman reported that the Committee had come to a certain Resolution as recommended by the Honourable the Lieutenant Governor as follows:—

That,

every mine, whose profit, as determined under section 3 of *The Mining Tax Act*, exceeds \$50,000 in a taxation year, is liable for and the owner, manager, holder, lessee, tenant, occupier or operator of the mine shall pay a tax of 15 per cent on the profit of the mine in the taxation year, as determined under section 3 of *The Mining Tax Act*,

as provided in Bill 111, An Act to amend The Mining Tax Act.

Also, that the Committee had directed him to report the following Bills without amendment:—

Bill 111, An Act to amend The Mining Tax Act.

Bill 112, An Act to amend The Mining Act.

Also, that the Committee had directed him to report the following Bill with certain amendments:—

Bill 105, An Act to amend The Highway Traffic Act.

Ordered, That the Report be now received and adopted.

The following Bill was read the second time and referred to the Committee of the Whole House:—

Bill 132, An Act to amend The District Welfare Administration Boards Act, 1962-63.

The Order of the Day for Second Reading of Bill 133, An Act to amend The Homemakers and Nurses Services Act, having been read,

Mr. Yaremko moved, That the Bill be now read a second time, and a debate arising, after some time, the motion having been put was carried on the following Division:—

THURSDAY, MAY 22ND, 1969

PRAYERS

2.00 O'CLOCK P.M.

The Order of the Day for the House to resolve itself into the Committee of Supply having been read,

Mr. Robarts moved,

That Mr. Speaker do leave the Chair and that the House resolve itself into the Committee of Supply.

Mr. MacDonald moved, seconded by Mr. Lewis,

That the motion be amended by adding thereto the following words:—

That this House censures the Government for its abject betrayal of the rights and needs of the Indian community in this province as evidenced by:

1. The mass resignation of the Indian Community Development Branch of the Department of Social and Family Services.
2. The resignation of Chief Wilmer Nadjiwon from the Indian Advisory Council.
3. The fact that the Interdepartmental Committee on Indian Affairs has not met for six months.
4. The fact that the Federal-Provincial Committee on Indian Affairs has not met for twelve months.
5. The fact that the Minister of Social and Family Services compounded monumental neglect by deceiving this House in not revealing the resignation crisis which was imminent or the memorandum of despair which was submitted by his staff, and therefore that the Government does not enjoy the confidence of this House.

If there is not a quorum on this count the names of those present will be recorded in the Votes and Proceedings and Mr. Speaker will adjourn the House until the next sitting.

3. If the House is sitting in Committee and a Member draws to the Chairman’s attention the apparent lack of a quorum, he will take precisely the same procedure as had already been outlined for Mr. Speaker, that is, he will have the bells rung for four minutes and then make his count. If his count discloses less than a quorum the Chairman will leave the Chair, the House will resume and the Chairman will report the facts to Mr. Speaker. On the Chairman’s report Mr. Speaker proceeds exactly as if the question had been raised while he was in the Chair, i.e. he will cause the bells to be rung for four minutes, then make his count. If a quorum is then present the House again resolves itself into Committee, but if not, Mr. Speaker adjourns the House until the next sitting. In this regard it would appear that if the adjournment takes place in the afternoon of the day on which a night sitting is to be held, the adjournment would be to the night sitting; otherwise, until the next day. If the incident occurs at a night sitting, the adjournment, of course, is until the following day.

It should be noted that a quorum consists of twenty Members, including the Speaker or the Chairman, as the case may be, and that neither the Speaker nor the Chairman takes any action unless the apparent lack of a quorum is called to his attention by a Member of the House.

The following Bills were read the third time and were passed:—

Bill 110, An Act respecting The Toronto Stock Exchange.

Bill 132, An Act to amend The District Welfare Administration Boards Act, 1962-63.

That the motion for second reading of Bill 195, entitled An Act respecting Health Services Insurance, be amended by deleting all the words after "that" and substituting therefor the words:—

"this House is of the opinion that the Bill is fundamentally defective in principle in that:

- (1) it fails to guarantee an immediate reduction of premiums, thereby continuing a regressive form of payment at unnecessarily high levels, without meaningful regard for the patient's ability to pay,
- (2) it fails to prohibit extra billing by participating doctors, thereby supporting a deterrent to use which runs counter to the principle of equal access to medical care services for everyone in Ontario,
- (3) it provides for a multiplicity of profit-oriented private carriers which will result in:
 - (a) the opportunity for private insurance companies to enhance profits on related health benefits, by using health insurance as a loss leader in any overall insurance package;
 - (b) the loss of public control over the escalating costs of health services.

And this House is further of the opinion that Bill 195 should be withdrawn and a new Bill, meeting the objections in principle listed above, be introduced forthwith.

PRAYERS

11.00 O'CLOCK A.M.

On motion by Mr. Welch,

Ordered, That, when this House adjourns the present sitting thereof, it do stand adjourned until Tuesday, September 30, 1969, at 2.00 p.m.

The following Bill was introduced and read the first time:—

Bill 206, An Act to amend The Highway Traffic Act. *Mr. Shulman.*

The House resolved itself into a Committee to consider a certain Bill and, after some time therein,

Mr. Speaker resumed the Chair, and the Chairman reported,

That the Committee had directed him to report the following Bill without amendment:—

Bill 124, An Act to amend The Legal Aid Act, 1966.

Ordered, That the Report be now received and adopted.

The following Bill was read the third time and was passed:—

Bill 124, An Act to amend The Legal Aid Act, 1966.

The Order of the Day for Third Reading of Bill 195, An Act respecting Health Services Insurance, having been read,

Mr. Dymond moved, That the Bill be now read a third time.

Before putting the motion, Mr. Speaker addressed the House as follows:—

Last evening, or rather earlier this morning, before the House rose, the Honourable Member for Riverdale asked for my ruling with respect to the procedures involved in introduction and discussion of Bill 195 and as to the legality of the Bill.

First may I state that it is, and always has been, the responsibility of Mr. Speaker to rule upon procedures in the House and all matters arising under the rules and precedents of this Assembly. Then may I state also that the constitutionality or legality of any Bill before the House has never been by custom, precedent, rule, or law within the purview of Mr. Speaker's powers or responsibility.

I have given careful consideration to the arguments advanced by the Honourable Member and have been able to search the authorities with respect to such matters. I have also noted that in Bill 136 of the Third Session of the 27th Parliament, being An Act respecting Medical Services Insurance, there were provisions similar to those in present Bill 195 and these were supported by a similar resolution recommended by the Lieutenant Governor.

May I then state my conclusions with respect to this matter, thus:

1. I cannot support the argument that provisions in an Act authorizing the setting of insurance premiums can be interpreted as a tax. Premiums are in payment for insurance coverage provided. Nor is such a suggestion necessary to support the Chairman's ruling made earlier in the week. His ruling is, in my opinion, predicated on the proposition that a motion seeking to control or limit the revenue of the Province is outside the power of a Private Member and I suggest that there can be no doubt that funds raised by these premiums are Public Revenue, even though not raised by taxation, as they are paid into the Consolidated Revenue Fund.

2. The specific point on which I have been asked to rule is as to the legality of the Act in question and I must inform the House that this question is beyond my jurisdiction. There have been numerous decisions by former Speakers, the most recent being that of Mr. Speaker Stewart on April 4th, 1944, to the effect that it is not within the Speaker's responsibilities or powers to give an opinion on the legality or constitutionality of any legislation introduced in the House.

3. The proceedings and processes with respect to Bill 195 are, therefore, in order and I shall proceed to place the motion for third reading before the House.

The motion having then been put, was declared to be carried,

And the Bill was accordingly read the third time and was passed.

The Honourable the Lieutenant Governor of the Province entered the Chamber of the Legislative Assembly and took his seat upon the Throne.

Mr. Speaker addressed His Honour in the following words:—

“May it please Your Honour:

The Legislative Assembly of the Province has at its present Sittings thereof passed certain Bills to which, in the name and on behalf of the said Legislative Assembly, I respectfully request Your Honour's Assent.”

The Clerk Assistant then read the titles of the Bills that had passed as follows:—

"The following are the titles of the Bills to which Your Honour's Assent is prayed:

Bill 48, The Professional Engineers Act, 1968-69.

Bill 124, An Act to amend The Legal Aid Act, 1966.

PRAYERS

2.00 O'CLOCK P.M.

The following Bill was introduced and read the first time:—

Bill 210, An Act to provide for the Payment of Health Insurance Premiums.
Mr. Nixon.

Before the Orders of the Day, Mr. Speaker delivered the following ruling:—

Yesterday, the Member for Sudbury East raised what he deemed to be a matter of privilege, concerning statements made by the Member for Nickel Belt outside the House. I pointed out to him at the time that I knew of no privilege of the House or of the Members that is offended by remarks made by a Member outside the House.

The Member for Riverdale, both in the House and later in a letter to me, suggested that he could see no difference in a Member rising to correct a misstatement by the Press relating to remarks made in the House and the misstatement by another Member made outside the House, in relation to things said in the House. I suggest this erroneous concept arises from a misunderstanding of the purpose of raising a matter of privilege. Strictly speaking, the purpose is not to set the matter straight or correct the record, but to institute proceedings for the punishment of the offender. Of recent years it has been the practice to drop the matter after calling it to the attention of the House and not to take the additional procedure, which, in fact, should be taken, that is to move a motion to bring the offender before the Bar of the House or a Committee of the House. May's 17th Edition, Chapter 8, makes it quite clear that such erroneous reports of proceedings in the House are breaches of privilege. The privilege in question is the privilege of Parliament of accurate and fair comment in the public press. It does not and never has extended to comments made outside the House by individuals, whether Members of the House or private citizens. It is, of course, possible that some personal remedy might be available, but it does not concern the House.

If the erroneous or offensive remarks are made in the House, then, of course, they might well give rise to a valid point of order, but, again, no known privilege is involved.

The House, according to Order, resolved itself into the Committee of Supply.

Bill 213, An Act to amend the Department of Education Act. *Mr. Pitman*.

Before the Orders of the Day, Mr. Speaker delivered the following ruling:—

Yesterday, when the Leader of the Opposition introduced and moved First Reading of a Bill entitled An Act to provide for the Payment of Health Insurance Premiums, I stated that I would take advice as to whether or not it is a money Bill. I have now been advised that there is no doubt that it seeks to impose a tax and to allocate public funds and cannot be introduced by a Private Member. I refer the House to my resume of the Rules applicable, on December 6th, 1968. For this reason I declare the Bill Out of Order and direct that the order for Second Reading be discharged.

- (1) (a) The amount of the shift in tax burden from commercial and industrial property to residential property which is occurring in re-assessment based on market value; and
(b) The methods for preventing such shift;
- (2) The effect of continuing the exemption of most industrial machinery and equipment from assessment, which adds to the inequitable sharing of the municipal tax burden between industrial and residential taxpayers;
- (3) The implications of the Report of the Committee on Farm Assessment and Taxation and the validity of its recommendation that special provincial grants be made to offset municipal revenue losses resulting from any relief provided for agricultural land;
- (4) The desirability of instituting a moratorium on any increased taxes arising from home improvements.

ONE HUNDRED AND FORTY-NINTH DAY

THURSDAY, NOVEMBER 13TH, 1969

PRAYERS

2.00 O'CLOCK P.M.

Mr. Snow, Member for Halton East, expressed the good wishes of the House to Mr. Allan, Member for Haldimand-Norfolk, on the occasion of the seventy-fifth anniversary of his birth, in which he was joined by Mr. Nixon, Leader of Her Majesty's Loyal Opposition and Mr. MacDonald, Leader of the New Democratic Party.

Mr. Allan made a suitable reply.

Before the Orders of the Day, Mr. Speaker delivered the following ruling:—

Yesterday, I agreed to take two separate matters under consideration:

Firstly, there was the question raised on Second Reading of Bill 74, An Act to amend The Ontario Society for the Prevention of Cruelty to Animals Act, 1955. I point out to the House that when an Order of the Day for Second Reading of a Bill is called and the motion for Second Reading properly moved, all that is before the House is that motion, any proposed amendment to that motion, and the principle of the Bill *as printed*. The fact that amendments may be made at the Committee stage cannot, of course, affect the debate on Second Reading, as this could affect every Bill brought before the House, many of which are amended at the Committee stage. The mere fact that the Minister having charge of the Bill has, in the course of his remarks, announced amendments which he proposes to move at the Committee stage, cannot alter the situation on Second Reading, and the suggestion that such an announcement imposes a duty upon Mr. Speaker to withdraw the Bill from consideration is completely untenable.

It was further suggested by the Member for Sarnia that Mr. Speaker is obliged to withdraw the Bill from consideration if the Minister has failed to "convince the House that it is a principle which should be approved". I suggest this is obviously erroneous. This is the very question upon which the House votes at this stage and it is the House which decides by this vote whether or not the Minister has been successful in convincing it, not Mr. Speaker.

Amendments are dealt with on their own merit at the Committee stage and if they go to the principle of the Bill, it would, of course, be the duty of the Committee to report that fact to the House when reporting the Bill. The House can take whatever action it deems proper under the circumstances.

Secondly, there is the amendment moved by Mr. MacDonald to the motion for Second Reading of Bill 205, The Assessment Act, 1968-69. It was alleged by the Member for Downsview that the words in the first paragraph declaring the Bill to be fundamentally defective in principle amount to a mere negation and therefore make the whole amending motion out of order. In the same way I,

on first reading the amendment, inclined to the opinion that the proposal contained in the last paragraph that the Bill should be withdrawn and a new Bill introduced incorporating the recommendations of the Committee on the matters set out in the body of the amendment, likewise amounts to a negation which should be expressed simply by voting against the main motion. However, on consulting the authorities, it seems clear to me that it is only when the whole object or thrust of the amendment amounts to a mere negation of the principle of the Bill, which could be amply accomplished by a negative vote, that the motion is unacceptable. In many cases this obviously becomes a rather difficult matter of judgment. On re-examining the amendment proposed by the Member for York South in this light I incline to the opinion that a statement alleging that the Bill is fundamentally defective in principle is not a mere negation when it goes on to explain in detail the reasons for this opinion and suggest a course of remedy. Similarly, it seems that while a motion only that the Bill be withdrawn would be out of order, a motion suggesting that it be withdrawn for the purpose of introducing a new Bill, meeting objections already outlined in the reasoned amendment, should receive the benefit of any doubt and be accepted, as it was on June 23rd in the proposed amendment to the motion for Second Reading of Bill 196, An Act respecting Health Services Insurance. I, therefore, conclude that my acceptance of that amendment in June was correct and that the amendment presently before the House on Bill 205 is in order.

The Order of the Day for *Resuming the Adjourned Debate on* the amendment to the motion for *Second Reading* Bill 205, The Assessment Act, 1968-69, having been read,

The debate resumed, and, after some time,

ONE HUNDRED AND SIXTY-FIFTH DAY

FRIDAY, DECEMBER 5TH, 1969

PRAYERS

9.30 O'CLOCK A.M.

On motion by Mr. Robarts,

Ordered, That, when this House adjourns on Monday, it stand adjourned until Thursday next December 11th, and that the Standing Health, and Legal and Municipal Committees be authorized to sit during the adjournment.

On motion by Mr. Reilly,

Ordered, That substitutions be permitted in the membership of the Standing Health, and Legal and Municipal Committees, prior to the commencement of each sitting.

The Deputy Speaker, in the Chair addressed the House as follows:—

Yesterday Mr. Speaker Cass agreed to look into the question of the authority of Standing Committees to make reports to the House. He has asked me to advise the House as follows:—

If the Members will refer to the Order authorizing these Committees, they will see that they are given power to “examine and inquire into all such matters and things *as may be referred to them by the House*, and to report from time to time their observations and opinions thereon”. The Members will agree that this is a clear statement that a Committee has only power to report on matters specifically referred to it by the House. In the matter at issue yesterday no order of the House was ever made referring Hydro rates to the Standing Government Commissions Committee.

Reference was made to the reports of the Health Committee on matters other than legislation. The Chairman of that Committee was very careful to obtain an order of the House referring the matter of the Brockville Hospital to his Committee for investigation and report. I assume the reference may have been to the more recent occasion when the Chairman during the consideration of the Estimates of the Health Department read from what he called a report on enquiries made by his Committee, informally and without reference from the House, into various matters. I must point out that this action by the Chairman was in Committee, during the course of his remarks on the Estimates. He made *no report* to the House nor was a copy of the alleged report Tabled.

On motion by Mr. Robarts,

Ordered, That the Standing Government Commissions Committee be authorized to report, if it so wishes, on its enquiry into Hydro rates.

The House resolved itself into a Committee to consider a certain Bill and, after some time therein, Mr. Speaker resumed the Chair, and the Chairman reported,

That the Committee had directed him to report the following Bill with certain amendments:—

Bill 205, The Assessment Act, 1968-69.

Ordered, That the Report be now received and adopted.

The House, according to Order, resolved itself into the Committee of Supply.

5. has failed to put forward a co-ordinated policy to deal with the growing problem of regional disparity and poverty in Ontario;

To this Act the Royal Assent was announced by the Clerk of the Legislative Assembly in the following words:—

"The Honourable the Lieutenant Governor doth thank Her Majesty's dutiful and loyal Subjects, accept their benevolence and assent to this Bill in Her Majesty's name."

The Honourable the Lieutenant Governor was then pleased to deliver the following gracious speech:—

Mr. Speaker and Members of The Legislative Assembly of Ontario:

As this Second Session of the Twenty-eighth Parliament of Ontario concludes, I should like to express the appreciation of the people of Ontario for the diligence and energy with which you have pursued an extremely heavy and rewarding legislative program.

By all measures, this Session which began on November 19th, 1968 and which is now in its thirteenth month, is unique. It has extended over the longest span of time and included more actual days and hours of sitting than any previous Session. In addition, this has been one of the most productive Sessions in Ontario history. More government and private legislative proposals have been placed before you for consideration than in any previous Session.

You have considered and approved measures and propositions which assure the continued vigorous and dynamic growth of Ontario. By your actions, the residents of Ontario are assured a richer and more fulfilling life. Equally important, you have conducted your deliberations within the context of the broader interests of Canada.

During the course of this Session, a great many events important to our history and progress were observed. These included the one hundred and fiftieth anniversary of the birth of the Honourable George Brown, a Father of Confederation from Ontario; the one hundredth anniversary of Ontario's representation in Great Britain, at which our beloved Sovereign presided; the sixtieth anniversary of the formation of the Ontario Provincial Police Force; and the tenth anniversary of the opening of the St. Lawrence Seaway. We were honoured to have with us in Ontario during the course of this Session His Royal Highness Prince Philip.

While your deliberations were being conducted in this House, the leaders of all of the governments of Canada met on three occasions to examine the constitutional development of our country and to consider changes which undoubtedly will have a profound effect upon the future of Canada. It is apparent from the recent discussions in Ottawa that, while a good deal of work has been accomplished, the process of achieving a new constitutional instrument for Canada will require much discussion and examination. However, the Government is most optimistic that we shall achieve the ultimate objective of a stronger, more united and progressive country, which will be increasingly more meaningful to the individual. This is an objective worthy of our utmost effort and to which the Government is totally and unequivocally committed.

A significant step forward in the process of strengthening our country occurred when the Governments of the Provinces of Ontario and Quebec concluded an educational and cultural exchange agreement. It is the first inter-governmental agreement in Canada dealing specifically with language and culture.

A major event during the course of this Session was the opening of the Ontario Centre of Science and Technology. Already this Science Centre, the Province's contribution to the people of Canada to observe our first one hundred years as a country, is recognized as one of the finest in the world. While legislation was being considered in this Chamber, the presence of the people of Ontario was growing rapidly at the site of the 1970 world exposition in Osaka, Japan, where construction of our Ontario Pavilion has been completed ahead of schedule. I am sure the Honourable Members are also fully aware that Ontario Place, where the vigour and spirit of the people of Ontario will find further expression, is rapidly rising on the Toronto waterfront.

The people of Ontario played an active role in the stimulating process of debate which surrounds the major issues which face us. They were represented by you, their elected representatives, in the deliberations which were conducted in this Chamber. They appeared voluntarily before committees of the Legislature. They participated in public discussions with members of the Executive Council at conferences held across Ontario to discuss taxation, assessment,

regional government and the needs of the residents of Northern Ontario. These conferences dealt in large measure with the white paper proposals for the reform of the provincial-municipal structure of taxation presented by the Honourable Treasurer of Ontario during the Budget Address.

There were significant changes in our municipalities during the course of this Session. On January 1st, the Regional Municipality of Ottawa-Carleton began to function. The Regional Municipality of Niagara came into being in October and will become fully functional on January 1st, 1970. Also brought into being during this Session was the new City of Thunder Bay which on January 1st, 1970 will carry forward with it the heritage of the cities of Port Arthur and Fort William and the adjacent municipalities of Neebing and Shuniah. In addition, you have before you the recommendations of commissioners and committees dealing with the future of local government in the Hamilton-Burlington-Wentworth area, in the Muskoka area, and at the District level in Northern Ontario.

Reports of Commissioners and Committees which had been asked to inquire into a broad range of subjects were presented to you. Among these were the second report of the McRuer Inquiry into Civil Rights, the Report of the Royal Commission on Atlantic Acceptance Corporation Limited, the studies of the Ontario Law Reform Commission, and the Report on Religious Education in the Public Schools of Ontario. The reports of the committees which surveyed the cultural life of Franco-Ontarians, farm assessment and taxation, the sale and distribution of fruits and vegetables in Ontario and the future of our forest industry were also presented to you. We remind Honourable Members of the important contributions made by various select committees which reported to this House during the session on a variety of subjects dealing with such topics as House rules, taxation and election laws. Other reports received by the House dealt with mutual funds and investment contracts, the operation of credit unions and collective bargaining within the public service of Ontario.

The sound and far-sighted advice contained in the first report of the Inquiry into Civil Rights was reflected in all legislation placed before you by the Government. The studies of the Ontario Law Reform Commission also contributed to major legislative initiatives.

There were two important developments in the procedures in this Chamber. One of these was the first television coverage of the Legislature in Session during the presentation of the Budget Address by the Honourable Treasurer of Ontario and the subsequent addresses of the non-governmental party leaders. The second was the experimental adoption of revised rules during the latter part of the Session. I am pleased to learn that these changes have been generally accepted by all Members and in practice have improved the ordering of business.

The legislative program placed before you by the Executive Council of Ontario was substantial in content, equitable in application to all segments of our population and positive in the improvement of the quality of the daily life of the people of Ontario.

An advance of major significance in the development of a comprehensive program of health care was the establishment of the Ontario Health Services Insurance Plan which provides physician services and a broad range of health care to all residents of the Province.

Much of the time of the House was devoted to the requirements of those of our society who live in our cities. Proposals dealing with urban life, housing, control of air and water pollution, transportation, assessment and finance were placed before you.

The passage of amendments to The Landlord and Tenant Act provided a new measure of equity for the rapidly-expanding proportion of our population who rent accommodation.

The implementation in December, 1968 of The Expropriation Act introduced concepts into the expropriation laws of this Province which have given new and significant rights to the landowner to ensure fair treatment.

Efficient transportation in all its forms is vital to the growth of our Province and is especially crucial to life in our cities. The concern of the Government with the provision of transportation services and facilities is demonstrated in the methodical research, which is now underway, into transportation problems and new concepts of mass transportation. It is anticipated that far-reaching benefits to many of the large urban centres in Ontario will result from the decision to embark on three new public transit demonstration projects in the heavily-populated areas, north, east and west of Toronto. In addition to these projects, the Government has materially increased its financial assistance to the municipalities for road and subway construction and to enable them to undertake their own transportation studies.

To improve the quality of our environment, legislative action was taken to control emissions from automobiles and iron foundries. Following careful study, the Government ordered a general prohibition of the use of the pesticide DDT. Further assistance to enable small municipalities to finance and extend water and sewage treatment facilities was provided.

Also approved was the re-enactment of The Assessment Act under which the Province will undertake the assessment activities formerly carried out by the municipalities. This is necessary to achieve a system of assessment across Ontario that is uniform and equitable and is an essential first step toward the achievement of an improved provincial-municipal system of taxation for our Province.

Among the most dramatic developments in the field of education during the course of this Session was the first year of operation by the new consolidated school boards. The county system is now demonstrating its ability to provide greater equality and enriched educational opportunities for all students in Ontario regardless of where they may live. The Government advocated the adoption of the continuous process approach throughout the formal educational system, with emphasis on a varied curriculum and flexible, individual time tables.

During the course of this Session, approval was given to amendments to the charters of Carleton and McMaster Universities and the University of Windsor, reflecting the trend towards greater participation by faculty and students in university government. Provision was also made for faculty and students to be part of the governing council of The Ontario College of Art.

A further important development was the appointment of a commission to advise the Government on long-term plans for all aspects of post-secondary education.

Particularly intensive public discussion arose out of two legislative proposals of great significance to all of the people of Ontario. The passage of Bills dealing with the care and treatment of animals and the provision of animals for use in medical research will properly serve and safeguard pets and their owners. These enactments will also assure that the requirements of medical research and the training of doctors and other personnel involved in Ontario's growing requirement for the provision of medical services will be well served.

Passage of legislation dealing with business corporations was a major step forward in the Government's approach to the rights, obligations and protection of shareholders and directors.

Amendments to The Toronto Stock Exchange Act provide for the election of two public directors, thereby ensuring that The Toronto Stock Exchange will reflect the interests of the investing public.

A far-reaching policy initiative which you approved and which will encourage new industrial activity in Ontario was contained in amendments to The Mining Act. Under this policy, it was established as a statutory principle that ores mined in Ontario must be processed in Canada. Amendments to The Mining Tax Act provided deductible allowances to encourage more mining exploration.

The Government's program of financial assistance to industry, which has greatly expanded and diversified the Province's economy, was reviewed and amended to provide additional help to small communities so that they may obtain an increased share of industrial development. The revised program of forgivable loans will be of particular assistance to communities in Northern and Eastern Ontario.

New principles and concepts were introduced in The Mechanics' Lien Act which will greatly facilitate the financing and protection of people engaged in the construction field.

A Commercial Registration Appeal Tribunal was established to provide a board of review for those applying for licenses under Ontario's Consumer Protection legislation and to serve as an advisory body to the Minister of Financial and Commercial Affairs.

Among the initiatives which you approved was an expansion of the extension services of the Department of Agriculture to provide more intensive counselling to farmers on the use of credit, farm management and rural development. Another was the establishment of boards for the orderly marketing of fish. Indications are that one of the first boards established has resulted in higher prices being paid to fishermen in Northwestern Ontario.

Enacted during this Session was The Law Enforcement Compensation Amendment Act which extended compensation to the victims of crime in Ontario. This legislation will become a source of great assistance to those who suffer as the result of violence committed during a criminal offence.

The extension of The Age Discrimination Act to include employees of the Crown and its agencies was further evidence of the Government's determination to end discrimination in employment based on age.

Further important steps were taken to preserve our heritage. The Ontario Heritage Foundation Act was broadened to include the preservation of property of recreational, aesthetic or scenic importance. In addition, during this Session the Museum of the Upper Lakes was opened on Nancy Island at Wasaga Beach where the history of exploration and commercial utilization of the Great Lakes waterway are dramatically displayed.

In declaring prorogued this Second Session of the Twenty-eighth Parliament of the Province of Ontario, I am pleased to note that you have scrutinized and approved the spending estimates of the various departments of the Government and have found the affairs of the Government in excellent order.

I pray that under the guidance of Divine Providence the people of Ontario will continue to enjoy a full and rewarding life.

In our Sovereign's name, I thank you.

The Provincial Secretary then said:—

Mr. Speaker and Members of the Legislative Assembly:

It is the will and pleasure of the Honourable the Lieutenant Governor that this Legislative Assembly be prorogued and this Legislative Assembly is accordingly prorogued.

Ross Macdonald, P.C., C.D., Q.C., LL.D., Lieutenant Governor of the Province.

3 O'CLOCK P.M.

And the House having met,

The Honourable the Lieutenant Governor then entered the House and, being seated on the Throne, was pleased to open the Session by the following gracious speech :

Mr. Speaker and Members of The Legislative Assembly of Ontario:

I extend warmest greetings and a sincere welcome to each and every one of you.

As we begin the Third Session of the Twenty-Eighth Parliament of the Province of Ontario, we enter a new decade with full confidence in the ability of the people of Ontario to recognize, accept and deal with the challenges before us. These are momentous days. These are exciting days. Let us devote our energies, our abilities, our judgment and our common sense to our collective tasks for the betterment of all.

For you, our elected representatives, this Third Session of the Twenty-Eighth Parliament provides an unparalleled opportunity to meet squarely the challenges of the Nineteen Seventies. Let us do so, secure in the knowledge that planning

and foresight have established a solid foundation of good government, a sound and vigorous economy, and a potential matched by few. The Province of Ontario is, and we hope will always be, a dynamic partner in the Canadian federation, contributing in every possible way to the strength, vitality and unity of our beloved country.

As a people, we in Ontario must be engaged not only in the re-evaluation of our past, but also in the process of charting a course for the final decades of this century. The backlog of problems bequeathed to us by two world conflicts, a major economic depression and a host of lesser roadblocks of the earlier years of this century, has been largely overcome. But we are still locked in the continuing task of providing for day-to-day living.

There is the necessity of developing and providing a system of education for our children that is adequate to their changing needs. There is the continuing urgency of making available housing within the means of our people. There is the necessity of assuring a fulfilling life in our cities. There is the necessity of providing more and more new and rewarding jobs. There is the requirement to maintain a healthy agricultural industry to provide for our expanding population. There is the necessity of ensuring that we have an honest and profitable climate for the conduct of business and commerce. There must be an efficient and rational integration of transportation throughout the Province. And through the provision of social services of high standards, we must ensure that the basic needs of our people are met.

Underlying all of this is the necessity to protect the rights of the individual while, at the same time, ensuring that we achieve higher standards of responsibility on the part of each and every person.

The powerful muscle and sinew created during the post-war years must be fully harnessed in the Seventies for the betterment of all. For a quarter century, Ontario has been expanding its industrial capacity, harnessing its natural resources, building great cities and providing goods and services to a rapidly-growing and increasingly-affluent population. We have been pre-occupied with many of the material necessities of life which accompany such rapid growth. As residents of a dynamic Province we have been flexing our economic muscles and each of us has shared in the benefits of having created one of the highest standards of living in the world.

Let us take pride in our accomplishments. However, the time has come to ensure that what we have created reflects adequately the quality of life to which we aspire. As we move into the decade of the Seventies, we must devote more of our attention to the provision of a richer, more rewarding life for ourselves, our children and their children. Such a fresh approach can make the Nineteen Seventies a new decade of discovery. The Nineteen Seventies will be a period when personal involvement in the activities of our communities will be encouraged and more pronounced; when the individual will relate more readily with his neighbours and his governments; when important steps will be taken to reduce the damage already wrought upon our environment; when the machinery of government will evolve to deal more efficiently with the complex problems of modern life.

During this Session of the Legislature, you will have placed before you some of the plans of the Government of Ontario to meet the challenges which will be uniquely those of the Nineteen Seventies.

Through the years, the Government of Ontario has developed a broad program of essential services for the people of our Province in fields such as health, education, housing, industry and agriculture. At the same time, it has created special programs related directly to the role of the individual within the larger society. Many of these special programs, such as the integration of newcomers into the mainstream of life in our Province, respect for human rights, leisure, recreation, and cultural activities, enable the individual to enjoy a full and meaningful life and to make a positive contribution to our Province and to Canada.

As we enter the Nineteen Seventies, however, even greater effort must be directed to these ends. To achieve these purposes, it is the intention of the Government to consolidate and co-ordinate in a reorganized Department of Citizenship many such activities now directed to individual groups of residents. This comprehensive program will demonstrate in a vigorous manner the commitment of the Government to the assurance of full and equal citizenship for all residents of Ontario. The role of each and every person, whether he be an established resident or a newcomer, will be emphasized. Specific steps will be taken to assist and encourage the individual to become an active, contributing member of our society. This ministry will encourage interests in community affairs and an increased awareness of the challenges which we face and the community goals which must be attained. By drawing together all of these programs in a single department and by giving emphasis to total involvement, a comprehensive citizenship program can be developed to further enrich the quality of life in our Province.

To further safeguard the civil rights of the people of Ontario, the historic protections which we all enjoy will continue to be woven into the fabric of our laws. To this end, proposals for revising the jurisdictions and procedures of our courts will be placed before you. These and other important matters reflected in the reports of the Honourable J. C. McRuer will merit the full consideration of the Legislature.

During the Nineteen Seventies, the accessibility and availability of government to the people will continue to be a challenge requiring the utmost dedication of all levels of government. Last Autumn the people of Northern Ontario discussed their aspirations directly with the Government of Ontario. Springing from a series of exceedingly successful development conferences, the Government will place before you during this Session its plans to co-ordinate activities related specifically to Northern Ontario.

This will be accomplished within a Department of Mines and Northern Development, which will have special co-ordinating and policy-making functions. Through this enlarged function of the Department of Mines, the people of Northern Ontario can be assured of a new forum and an entirely new mechanism by which their concerns, requirements and aspirations can be heard and more effectively communicated.

Ontario has been truly blessed by Providence with the bountiful gifts of nature. But this bounty of natural resources, including soil, water and air, must be recognized for what it is: a fragile gift to be treated with the utmost respect; an heirloom to be passed on unimpaired to our children. The ecological balance is extremely delicate. We cannot continue to abuse our environment.

One of the great challenges we face during the Nineteen Seventies is to restore this balance. The challenge to reduce and prevent pollution is, of course, not that of Ontario alone. It is world-wide. But it is one to which the people of Ontario can make — indeed must make — a major contribution.

To its credit, the Legislature of Ontario has concerned itself with this problem for many years. An impressive array of measures has been implemented to halt pollution of our water, air and soil, to repair past damages and to prevent future pollution. Substantial success has been achieved. As we enter the Nineteen Seventies, a new and more vigorous attack is being mounted to meet the stresses we are placing upon our environment and to protect it from further damage.

To demonstrate its commitment to this task, the Government of Ontario will concentrate all governmental activities related to the abatement and prevention of pollution and the enforcement of appropriate statutes within the Department of Energy and Resources Management. This Department will establish policy objectives and standards in all fields related to the preservation and improvement of our environment and will work closely with other levels of government and industry to achieve our objectives.

The Government will carry into this Session its continuing commitment to the current review of the constitutional instruments of Canada and looks forward during 1970 to further discussions with the federal and provincial governments. The Government is confident and optimistic that the strength and unity of Canada will be enhanced by these discussions. The Government believes that you, the elected representatives of the people of Ontario, should become more fully engaged in the examination of the positions taken to date and that you should have an opportunity to contribute fully to the constitutional review. To this end, a Standing Committee of the Legislature on Constitutional Matters will be established. Your participation will further ensure that the review will represent the aspirations of all the residents of Ontario.

As we enter the Seventies the pressing requirements of our urban centres will demand more and more of our attention. As our population concentrates in and around our cities, we must find meaningful solutions to the needs of the urban dweller. In recognition of the challenges which are specific to our cities, the Government will convene a conference during April which will begin the task of charting a new course for our municipalities. This Legislature will be adjourned so that each of you may attend this conference and participate in these vital discussions.

You will be asked to approve measures which will facilitate collective bargaining, promote harmonious relations between labour and management and uphold and protect the rights and interests of all of the people of Ontario in labour disputes.

You will also have placed before you legislation which will provide collective bargaining procedures for Crown employees.

You will have placed before you for approval legislation dealing with the incorporation, operation, management and dissolution of Ontario-registered ordinary corporations with share capital. This legislation will be in the form of a revised Business Corporations Act which will reflect your previous consideration, that of the business and financial community and the recommendations of the Interim Report of the Select Committee on Company Law.

This Spring and Summer, the people of Ontario will emphasize their pride and confidence in their Province and Canada by their participation in the 1970 World Exposition in Osaka, Japan. Through the Ontario Pavilion and its staff, we shall strengthen our relationships with the people of Japan and the world, expand our trade with the nations of the Pacific and find new markets for the products of Ontario agriculture. Our bright and eager hostesses, hosts and Ontario Provincial Police officers are now in Japan making final preparations for the opening of EXPO 70 on March 15th. It is my hope that many of you will have an opportunity to visit this exposition.

Earlier this month, in a Federal-Provincial Conference in Ottawa, much attention was directed to the problems of inflation. It was unanimously agreed that each government would examine all areas of expenditure in a concerted effort to contain spending to help ease the current inflationary pressures on our economy.

The achievement of any meaningful results will require the closest scrutiny of all spending programs in both the public and private domain and the co-operation of all citizens. Restraint and co-operation by all individuals and business enterprises are called for.

The legislative programs to be placed before you will reflect this approach. Every effort will be made to ensure that our governmental programs for people will be continued within the limitations of our undertakings to contain total governmental expenditures.

Within the framework of these restraints the Government will respond to the needs of our society and our people as we enter the decade of the Nineteen Seventies.

May Divine Providence guide you in your deliberations.

God save the Queen and Canada.

His Honour was then pleased to retire.

On motion by Mr. MacNaughton,

Ordered, That, on Tuesday, March 31st, the Routine Proceedings of the House be set aside so that the Budget may be presented by the Treasurer immediately after the Message from His Honour presenting the Estimates is read, following Prayers.

The following Bills were introduced and read the first time:—

Bill 43, An Act to establish The Ontario Educational Communications Authority. *Mr. Davis*.

Bill 44, An Act to amend The Schools Administration Act. *Mr. Reid* (Scarborough East).

Before the Orders of the Day Mr. Speaker ruled as follows:—

“The Member for Downsview yesterday complained of the refusal of the Provincial Auditor to make his report on certain actions of the Department of Public Works available to the Member.

While I agree completely with the statement that the Provincial Auditor is an officer of the House, which makes him subject to order and direction by the House, I cannot agree with the proposition that this makes him subject to direction by an individual Member. I suggest that there are several procedures open to the Member to obtain the information he requires:—

1. He may put a Notice of Motion for a Return on the Notice Paper—such Notices need not wait for the Private Members' Hour, and customarily are not debated. Usually if it is decided that the Return should be made it is simply made by Tabling the required information before the Orders of the Day.
2. He might ask an Oral Question. While I realize that it is the Provincial Auditor, not the Minister, who is directly concerned, as the report specifically deals with the Department of Public Works, the question could be directed to that Minister, asking him to make a copy of the report available to the Member.
3. He might ask the Public Accounts Committee to require the Auditor to deliver to it a copy of the report in question. I have no doubt that this direction would be complied with.

The Honourable Member also asked me, as Speaker, to call the Auditor before the Bar of the House. For the guidance of the Members I must point out of my own volition I have no such authority. The proper procedure is for the Member who makes the complaint, when he feels such action desirable, so to move; the motion is then subject to debate and vote of the House in the same way as any other motion.”

Mr. Speaker then addressed the House as follows:—

“Mr. MacDonald, the Leader of the New Democratic Party, has given me Notice under Standing Order number 38 (a), of a Motion to adjourn the House to discuss a matter of urgent public importance, as follows:—

That the House do now adjourn to discuss a definite matter of urgent public importance, namely the sudden drastic decline in economic activity symbolized by the elimination of 800 jobs as a result of the announced shut-downs of the Queen Street Toronto plant of Dunlop Canada Limited and of the Murray-Selby Shoe Company Limited at London, Ontario.

After carefully considering the subject matter, I have come to the conclusion that I must rule this Motion out of order, for the following reasons:—

1. While it is obviously a matter of public importance, at least in one local area, it does not meet the requirement for such Motions that it be a specific event of recent occurrence which is being brought before the House for the first time at the first available moment, which is the justification for this extraordinary procedure. The main basis for this Motion is the contemplated shutdown of the Dunlop Plant on Queen Street. This matter has already been brought to the attention of the House on several occasions and debated at some length by the Member for Riverdale in the Throne Debate, as well as at considerable length in the Question Period.
2. While the proposed shutdown is obviously of public importance in Toronto, I agree with rulings made by my predecessors that it must be of more than local importance, and I am of the opinion that the Motion submitted does not meet this Province-wide requirement."

Mr. Speaker then advised the House that he considered his Ruling to be strengthened by the Statement of the Minister of Labour today which had the effect of further reducing the scope of the proposed motion by eliminating the reference to the London based company.

On appeal Mr. Speaker's Ruling was sustained on the following division:—

XVII.

100. The Rules, Orders and Forms of Procedure, as approved by the Assembly on Monday, April 3, 1939, are hereby repealed. Repeal of previous Standing Orders, etc.

The following Bill was introduced and read the first time:—

Bill 47, An Act to amend The Landlord and Tenant Act. *Mr. Deans.*

Before the Orders of the Day, Mr. Speaker directed the attention of the House to that part of Standing Order No. 38(a) which deals with motions to adjourn the House to discuss matters of urgent public importance, and also to the explanation of the procedure thereunder to be found in Lewis' "Parliamentary Procedure in Ontario" at page 39. He then informed the House as follows:—

This morning the Leader of the Opposition gave me notice, as required by Standing Order 38(a), of the following Motion:—

“That the House adjourn to discuss a matter of urgent public importance, namely, the gross mercury pollution of Lakes St. Clair and Erie, resulting in temporary and perhaps permanent injury to the fishing industry and the livelihoods of those involved in it.”

I have carefully considered this matter in the light of the authorities and precedents and am firmly of the opinion that the subject matter meets the requirements for such motions, in that it is a specific matter that has very recently come to the attention of the public, that it is certainly a matter of urgency, and that it is undoubtedly of great public importance, not only locally, but to the whole Province; not only in that it affects the fishing industry generally, but even more important, that the main thrust of the Motion is the matter of pollution of our Great Lakes Waterway System, which certainly affects all residents of the Province.

For these reasons I have accepted the Motion and call upon the Leader of the Opposition to move it and speak to it for not longer than ten minutes, as provided by Standing Order 38(a), following which any Member wishing to enter the debate may do so with the same time limitations.

Mr. Nixon then moved his motion, seconded by Mr. Ruston, and the debate ensued.

The Order of the Day for resuming the Adjourned Debate on the motion that the Speaker do now leave the Chair and the House resolve itself into the Committee on Ways and Means, having been read,

The debate was resumed and, after some time, Mr. Nixon moved, seconded by Mr. Singer,

That the motion "That Mr. Speaker do now leave the Chair and the House resolve itself into the Committee on Ways and Means" be amended by adding thereto the following words:—

That this House regrets the failure of the government—

1. to use the financial resources of this province, particularly the \$462 million of new tax income, to provide adequate and efficient programs for housing, pensions, pollution control and comprehensive medical insurance;
2. to develop programs of equitable tax reform in financial areas under provincial jurisdiction and to co-operate with the other provinces and the government of Canada to achieve this goal on a national scale;
3. to adequately account to this Legislature for their financial transactions and the efficiency of the government's programs and business methods.

On motion by Mr. MacDonald,

Ordered, That the debate be adjourned.

Ordered, That the Report be received.

Resolved, That the Committee have leave to sit again.

Mr. Davison moved, seconded by Mr. Pilkey, That in the opinion of this House, in view of the serious effects of the inflationary price spiral on pensioners and the failure of the federal government to provide any significant increase in pensions, The Ontario Government should immediately provide a supplement of \$40 per month for all persons in receipt of Old Age Security as an emergency measure until such time as the federal government responds to pressure from the Ontario Government and the electorate generally and raises Old Age Security payments at least to the "poverty level" identified by the Economic Council of Canada and introduces adequate escalation clauses into all government pension legislation to keep pensions in step with the cost of living.

The debate concluded on the adjournment of the House.

The House then adjourned at 6.00 p.m.

TWENTY-FOURTH DAY

TUESDAY, APRIL 7TH, 1970

PRAYERS

2.00 O'CLOCK P.M.

The Order of the Day for resuming the Adjourned Debate on the amendment to the motion that the Speaker do now leave the Chair and the House resolve itself into the Committee on Ways and Means, having been read,

The debate continued, and, after some time,

Mr. MacDonald moved, seconded by Mr. Renwick (Riverdale), That this debate be adjourned until such time as the Provincial Treasurer tables in this House a comprehensive program to combat the rising unemployment that has been induced by the misguided policies of the Liberal Government in Ottawa, and permitted to continue by the lack of action by this Government in Ontario. This program to combat unemployment should include:

1. a massive increase in funds available for housing starts.
2. capital expenditures for pollution control projects.
3. increased aid to municipalities for needed capital expenditures.
4. legislation to require adequate notice of plant shutdowns and layoffs so that remedial government action, that would prevent the subsequent disruption of livelihoods, the loss of production, the loss of tax revenue, and the waste of human resources, can be planned and undertaken.

Mr. Speaker, while having doubt as to the validity of the motion decided to accept it under Standing Order No. 38, but ruled that the debate permitted under clause *c* of the Standing Order must be confined to the purpose of the motion, that is, that the debate be adjourned pending certain action by the Treasurer, and must not deal with such details as were set out in the numbered paragraphs 1 to 4 of the motion.

On appeal Mr. Speaker's ruling was sustained on the following division:—

TWENTY-FIFTH DAY

WEDNESDAY, APRIL 8TH, 1970

PRAYERS

2.00 O'CLOCK P.M.

Before the Orders of the Day Mr. Speaker delivered the following ruling:—

Yesterday, the Member for York South, in the course of the Budget debate, moved what purported to be an adjournment motion which included provisions amounting to a want of confidence motion. It seemed to me at the time that this was, to say the least, an unusual procedure. I inclined to the opinion that a want of confidence motion should be moved only on one of those occasions contemplated by our Standing Orders and recognized procedures, or by a substantive motion of which notice had been given on the Notice Paper, and that a motion to adjourn the debate should be just that and nothing more. Rather than delay the business of the House while considering this matter I decided at the time to accept the motion, at least for the moment.

I have now had an opportunity to refer to the authorities. It is necessary to draw the distinction between ancillary motions to adjourn the House or the debate and dilatory or superseding motions, even though the form of the motion is identical in each case. The former are part of the technical procedure in the House—for example, a motion to adjourn a debate before or between orders of the day—the latter are for the purpose of interrupting and superseding the question already under consideration.

Both Lewis and May make it clear that the form of the motion, and the resulting question put by Mr. Speaker, is simply for the adjournment of the House or the debate, without extraneous words. May is particularly clear at page 404 of the Seventeenth Edition where he says that such a motion “must be *simply that the debate be now adjourned*, and cannot be coupled with prefatory words; nor is it allowable to move that the debate be adjourned to any future time specified”. The foregoing applies equally to dilatory motions to adjourn the *House*.

For the benefit of the Member for Humber, I should mention that he was right in his reference to May, which indicated the correct, simple form of such motions. However, he was incorrect in his suggestion that such dilatory motions are not debatable under the British rule. That rule is the same as our Standing Order 38(c), under which we are operating for the time being. Such motions are debatable, but the debate must be confined to the matter of such motion. I refer the Member to May, page 449, last paragraph.

Perhaps it is desirable to remind the House of the consequence of a successful superseding or dilatory motion. If such a motion is moved in proper form to adjourn the House and is carried, it supersedes the original question for that Session. For example, if Mr. MacDonald's motion of yesterday had been to adjourn the House and had been in order and had carried, it would have killed Mr. Nixon's amendment to the Budget motion. However, if the motion is merely to adjourn the debate, the result is not quite so severe; it supersedes the original question and removes it from the Order Paper for the time being, but such order can be renewed.

For the reasons stated, I must now make it clear that Mr. MacDonald's motion of yesterday was out of order and that I should not have accepted it. All the subsequent procedure should not, therefore, have taken place and will not constitute a precedent for this House in the future.

Answers were Tabled to Questions Nos. 1, 4, 5 and 8 (*See Hansard*).

The following Bills were read the second time and ordered for Third Reading:—

PRAYERS

2.00 O'CLOCK P.M.

The following Bill was introduced and read the first time:—

Bill 58, An Act to provide for the Protection of Personal Privacy. *Mr. Kennedy*.

Arising out of a matter raised by the Member for High Park, Mr. Speaker addressed the House as follows:—

“Some Members of the House seem to be under the impression that it is permissible to raise a point of order for the purpose of correcting a mistake or misstatement of another Member, even though it is not suggested that that mistake or misstatement has been made for the purpose of deliberately misleading the House. This is, of course, not so. Before there can be a point of order there must be a breach of order. Something must have been done which is contrary to the Standing Orders of the House, or recognized by such Standing Orders or the Precedents of the House as being out of order. A Private Member who wishes to correct what he considers to be an incorrect statement must do so when he has the floor under one of the recognized procedures of the House; for example, he could use the Throne or Budget debates or more easily the Estimates of the Department concerned, or he could even present his version of the facts of the matter in the form of a question to the Ministry in the Oral Question Period. A Minister of the Crown, of course, has a vehicle for correction not open to Private Members in the procedure “Statements by the Ministry”. It is very important that a Minister should have this special method as he is charged with the responsibility of administration and it is not only his right but his duty to his Department and to the citizens of Ontario to see that errors relating to his Department are corrected at the earliest possible moment.

To sum up, just as there cannot be a matter of privilege unless one of the privileges of the House or the Members thereof, recognized by statute or precedent, has been offended, there cannot be a point of order unless there has been a breach of order.”

The House, according to Order, resolved itself into the Committee of Supply, and after some time,

Mr. Speaker resumed the Chair; and the Chairman reported progress; also. That the Committee had directed him to ask for leave to sit again.

Ordered, That the Report be received.

THIRTY-THIRD DAY

MONDAY, APRIL, 20TH, 1970

PRAYERS

2.00 O'CLOCK P.M.

Mr. Speaker informed the House that the Clerk had received from the Commissioners of Estate Bills their report in the following case:—

Bill Pr25, An Act respecting the Charlotte Eleanor Englehart Hospital of the Town of Petrolia.

Ordered, That the Bill together with the report of the Commissioners of Estate Bills thereon be referred to the Standing Private Bills Committee.

The following Bills were introduced and read the first time:—

Bill 64, An Act to amend The Municipal Act. *Mr. McKeough.*

Bill 65, An Act to prohibit the use of Non-Returnable Bottles. *Mr. Gaunt.*

Bill 66, An Act to amend The Workmen's Compensation Act. *Mr. Jackson.*

Before the Orders of the Day Mr. Speaker delivered the following ruling:—

On Wednesday last, April 15th, I delivered a ruling relating to charges of misrepresentation by one Member against another. The Member for Sudbury had the impression that I was dealing with cases where one Member is misquoted by another. This impression was incorrect. The Member was quite right in his contention that a Member who has been misquoted must have an early opportunity of correcting such misquotation, whether the misquotation is in the Press or by another Member in the House. In the first instance it is quite clear that the Member has a right to draw the attention of the House to the improper quotation in the Press as a matter of privilege, and if the matter is serious enough, may even move to have the offending publisher or reporter brought before the Bar of the House. If a Member is misquoted by another Member the matter is specifically covered by one of the provisions of Standing Order 20, which says in part—"No Member may speak twice to a question, except in explanation of a material part of his speech in which he may have been misconceived, but then he is not to introduce new matter". Moreover, if a Member misinterprets the language of another, he may, at least if it appears deliberate, be called to order by Mr. Speaker. However, my ruling on Wednesday did not deal with this question at all. It dealt solely with allegations made by one Member of misrepresentation *of facts* by another Member.

Now I would like to deal with the request of the Member for York South relating to my ruling. At the outset I wish to say that a deliberate attempt was made in my ruling to relax somewhat the strict rule relating to such allegations as it has been prescribed by precedent. This relaxation was, I repeat, deliberate, in an effort to give some recognition to the rather freer procedure which has been prevalent in the last few years. However, since Mr. MacDonald has asked for the authorities, I will now state the effect of the recorded precedents, as follows:—

1. It is Out of Order for one Member *even to accuse* another Member of a deliberate falsehood, or of misrepresentation. There is at least one case which holds that the accusation must be of deliberate misrepresentation before it is objectionable, but this is not clearly settled. See May, 17th Edition, page 456.
2. A point of Order to be valid must be raised the moment the alleged breach of order occurs and dealt with immediately. I refer the House to May at page 467, where it says—"Although it is the duty of the Speaker to interfere in the first instance for the preservation of order when, in his judgment, the occasion demands his interference, it is also the right of any Member who conceives that a breach of order has been committed, if the Speaker refrains from interfering (either because he does not consider it necessary to do so, or because he does not perceive that a breach of order has been committed) to rise in his place, interrupting any Member who may be speaking, and direct the attention of the Chair to the matter, *provided he does so the moment the alleged breach of order occurs*. When a Member speaks to order he must simply direct attention to the point complained of, and submit it to the decision of the Speaker. When the attention of the Speaker is thus called to a

supposed breach of order, he at once gives his decision and if, in his opinion the Member whose words or conduct are complained of is disorderly, calls upon him to conform to the rules of the House."

Examination of the aforementioned two points has reinforced my view, as expressed last Wednesday, that a Member wishing to state his version of facts which he believes to have been misstated by another Member must do so during one of the regular debates in the House, or, as previously suggested, by an oral question if it can be properly worded to accomplish the purpose. I am unable to find any authorization for the proposition that a Member can rise on a so-called point of order before the Orders of the Day to make an accusation of misrepresentation of facts by another Member.

The House, according to Order, resolved itself into the Committee of Supply, and after some time,

Mr. Speaker resumed the Chair; and the Chairman reported progress; also, That the Committee had directed him to ask for leave to sit again.

Ordered, That the Report be received.

Resolved, That the Committee have leave to sit again.

having been read,

Mr. Bales moved, That the Bill be now read a second time, and a debate arising, after some time,

Mr. Renwick (Riverdale) moved in amendment, seconded by Mr. Pilkey, That the motion for Second Reading of the Bill be amended by striking out all the words after the word "That" and substituting thereto the following:—

"the House is of the opinion that the Bill is fundamentally defective in principle in that (1) it fails to provide adequate notice of termination of employment (or wages in lieu of notice) based on the combined factors of age and length of service, and (2) it fails to provide for adequate notice and public hearing before the Minister in the event that an employer decides for any reason to curtail or discontinue all or a substantial part of his operations or to change the operations in any way which would substantially reduce the number of his employees or the composition of his

work force as to trade or other skills or qualifications, with power in the Minister to determine the matter. And this House is further of the opinion that Bill 96 should be withdrawn and a new Bill meeting the objections in principle listed above, be introduced forthwith."

The debate continued, and after some time,

Mr. Speaker put the question Shall the words "the bill be NOW read a second time", sought to be struck out, stand part of the Motion which was decided in the affirmative on the following division:—

PRAYERS

2.00 O'CLOCK P.M.

On motion by Mr. McKeough,

Ordered, That the Order for Third Reading of Bill 102, An Act to establish The Regional Municipality of York, be discharged and the Bill be referred back to Committee of the Whole House for further amendment.

Before the Orders of the Day, Mr. Speaker delivered the following rulings:—

Last week the Honourable Minister of Justice and Attorney General rose on a matter or privilege with respect to a certain cartoon appearing in the Toronto Daily Press. I agreed with his serious view of this matter and stated that I would give it consideration.

Since the matter in question was so phrased as to refer to the Canadian Parliamentary System, I may advise the Members that I am in communication with the Honourable Speaker of the Canadian House of Commons to ascertain the opinion of himself and the Members of the House of Commons in the matter. Thereafter, if action by me should seem required, I shall most certainly report to the House.

However, my course of action in this matter does not preclude any member of this Assembly from taking any action with respect to the incident which may be provided by our Act, Rules, Standing Orders, Procedures or Traditions.

Last week the Honourable Member for High Park raised with the Deputy Speaker and again with me the question of privilege concerning the alleged breach of confidence respecting correspondence between himself and the Minister of Justice and Attorney General. I have been unable to find any authority for the proposition that this is any concern of the House whatever. I can think of no basis on which it could be referred, as has been suggested, to any of the standing committees of the House. It is a matter entirely between the two members concerned.

The other day the Honourable Member for High Park raised with the Deputy Speaker and with myself the question of threats against the safety and life of himself. There is no doubt that threats against Members with respect to their conduct in the House, or things said by them in the House, are breaches of privilege or contempts. This is supported in May's Parliamentary Practice, 17th Edition, page 124, and The Legislative Assembly Act of Ontario, R.S.O. 1960, Chapter 208, Section 45. However, even though Members today usually stop short of moving for the offender to be brought before the Bar of the House, this is undoubtedly the correct procedure and is certainly the procedure contemplated by section 45 of The Legislative Assembly Act. In other words, when raising a point of privilege, a Member must be in a position to name the offender and move that he be brought before the Bar of the House for trial and, if guilty, punishment. There is no procedure by which a Member can raise a point of privilege to relate to the House a hearsay threat made by some person or persons unknown. Obviously the Member for High Park was not in a position to name the offender or make the necessary motion and, therefore, what action by the House was he requesting? Nor would it appear that the Member's remarks could have been made as a Personal Explanation, as suggested by the Member for Sudbury. Personal Explanations relate to the Member's own conduct, not to the conduct of some unknown persons. May, at page 373, says "in regard to the explanation of personal matters, the House is usually indulgent; and will permit a statement of that character to be made without any Question being before the House provided that the Speaker has been informed of what the Member proposes to say, and has given leave. . . .; No debate should ensue thereon, but if another Member is involved in the personal statement, he is generally allowed to give his own view of the matter and to say whether he accepts it or not." Abraham and Hawtrey's Parliamentary Dictionary defines a Personal Explanation as follows:— "A Member who wishes to explain, excuse, justify or apologize for, his conduct is allowed to make a statement, known as a Personal Explanation, immediately after Question time, Examples of such statements are those made by ex-Ministers explaining their reasons for resigning office, and those made by Members whose conduct has been subject to criticism. These statements are made by the indulgence of the House, and not of right, since there is no Question before the house at the time, and no debate can take place." Wilding and Laundry's Encyclopaedia of Parliament gives this definition — "A statement made by a Member before the commencement of public business, permission having previously been obtained from the Speaker, explaining his conduct in regard to a particular question or occasion, replying to an accusation made by another Member, or correcting an alleged misrepresentation. No

debate should follow, and general arguments or too distinct a reference to previous debates are out of order. The Speaker of the House of Commons himself made a Personal Statement on 11 December 1947, when he apologized for having treated a Member unfairly."

I am, therefore, confirmed in my opinion that the Deputy Speaker was correct in stopping the Member from speaking as a matter of privilege to an alleged threat of unknown origin. The Member could, of course, make his remarks in the Budget Debate or even in the Discussion of the Estimates of the Department of Justice, if he could satisfy the committee of its relevance to one of the Votes of those Estimates.

The Deputy Chairman referred to me the point of privilege raised with him yesterday by the Member for Riverdale. Whether or not the matter is a breach of privilege depends, of course, on whether it can be construed as reflecting on his behaviour as a Member of the House. It has been held that speeches or writings reflecting on the conduct of Members *as Members*, is a breach of privilege. (May, page 124). Unless it can be connected with his actions *as a Member*, it does not concern the House at all. Otherwise it would be a matter for whatever action the Member may decide to take in the courts. I am doubtful that the document reflects on his conduct as a Member, as it does not quote any speeches by him in the House, or any action on his part as a Member, even though it refers to his position as an M.P.P.

However, if the Member so desires, he can under our Standing Orders move the required motion and then it is up to the House to decide whether or not a breach of privilege has actually occurred, and if so, how to deal with it.

Yesterday the Honourable Member for Windsor-Walkerville rose on a matter of privilege with respect to a certain letter purporting to have been directed to me by the Member for Windsor-Walkerville but not bearing the name "Newman" as signature. I hasten to assure the Honourable Member that his seat is not presently in danger and to advise him that the article in question was the speech delivered by Master Bruce Diorio sitting as Member for Windsor-Walkerville in the Mock Parliament held by the present group of Legislative Pages. I am sure the Honourable Member must be honoured to have had his riding selected for representation in the Mock Parliament and I am equally sure that his perusal of the document mentioned by him will indicate that the seat was occupied by a very bright Grade VII boy.

EIGHTY-FIFTH DAY

FRIDAY, OCTOBER 9TH, 1970

PRAYERS

10.00 O'CLOCK A.M.

Before the Orders of the Day, Mr. Speaker addressed the House as follows:—

Referring to the request made by the Member for High Park yesterday, I have no hesitancy in reaffirming in general terms the ancient parliamentary privilege of freedom of speech, which has been given statutory recognition in Section 37 of The Legislative Assembly Act. May, in the 17th Edition, says that a Member "is protected by his privilege from any action for libel, as well as from any other question or molestation". See also United Kingdom House of Commons Debates (1960-61) 630, cc. 385-7. There is no doubt that while the House itself can punish a Member for offensive words, no action may be taken outside the House with respect to anything said by a Member therein.

With respect to the specific incident referred to by the Member for High Park, I must point out that, if a breach of privilege is committed, there is proper procedure for laying a charge before the House and submitting evidence in support thereof. The determination of such charge then belongs to the House, not to the Speaker individually. Moreover, I am not, of course, aware as to whether or not the honorable Member has made any statements at the Royal Commission Inquiry or elsewhere outside the House, nor is it any concern of mine if he has done so. I merely point out that his parliamentary immunity does not extend to any such statements.

The House, according to Order, resolved itself into the Committee of Supply, to consider Estimates of the Department of Education, and after some time,

Mr. Speaker resumed the Chair; and the Chairman reported progress; also, That the Committee had directed him to ask for leave to sit again.

FRIDAY, NOVEMBER 6TH, 1970

PRAYERS

10.00 O'CLOCK A.M.

Mr. Hodgson (Victoria-Haliburton), presented the following report:—

REPORT OF STANDING ORDERS AND PROCEDURES COMMITTEE

Re: STANDING COMMITTEES

The conflict when two or more Standing Committees meet at the same time has troubled the Legislature for many years and is aggravated by the very limited time available for Committees, as a result of the very heavy work load in today's Legislature. In an attempt to solve this problem your Committee makes the following recommendations:—

1. That there shall be four Standing Committees with wide jurisdiction in the areas designated hereunder, plus three additional Standing Committees with specialized duties, namely: (a) Estimates, (b) Public Accounts, and (c) the Regulations Committee, required by Section 12 of The Regulations Act, as enacted by Chapter 110, Statutes of Ontario, 1968-69; Public Accounts and Regulations Committees to be small in number.
2. That the four general committees have no conflict in membership with one another, but that the Public Accounts and Regulations Committees be allowed some conflict of membership with the four general committees and the Estimates Committee, but not with one another.
3. That the four general committees be as follows:—
 - (1) *Procedural Affairs Committee*, to which will be automatically referred the applications for Private Bills for report as to compliance with the Standing Orders governing such applications. This Committee may, in the discretion of the House, also have referred to it any matter relating to Standing Orders and Procedures in the House, or the Committees thereof, and any matter relating to the privileges of the House and the Members thereof, or of the election of such Members.
 - (2) *Legal Administration Committee*, to which may be referred in the discretion of the House, any Bills, Estimates, or other matters relating to the Departments of Financial and Commercial Affairs, Justice, Labour, Municipal Affairs, Provincial Secretary and Citizenship. To this Committee also will be automatically referred any Boards and Commissions which report through the Ministers of those Departments.

Committees (1) and (2) combined under the Chairmanship of the Chairman of the Legal Administration Committee will function as the Private Bills Committee.

- -
 - (3) *Social Affairs Committee*, to which may be referred in the discretion of the House, any Bills, Estimates, or other matters relating to the Departments of Correctional Services, Education, Health, Social and Family Services and University Affairs, and to which will also be automatically referred those Boards and Commissions which report through the Ministers of those Departments.
 - (4) *Resources Committee*, to which may be referred in the discretion of the House, any Bills, Estimates, or other matters relating to the Departments of Agriculture and Food, Energy and Resources Management, Highways, Lands and Forests, Mines and Northern Affairs, Tourism and Information and Transport, and to which will also be automatically referred any Boards and Commissions which report through the Ministers of those Departments.

The adoption of these recommendations would enable the four general committees to meet at the same time on Monday, Tuesday and Thursday mornings. The present practice of any one of these four committees, or the Estimates Committee, sitting concurrently with the House for the consideration of the Estimates would be continued.

The Public Accounts and Regulations Committees would continue as at present to sit at specific times in the late morning or early afternoon, prior to the opening of the session, to avoid conflict with the four general committees.

The quorum of each of the four main committees and of the Estimates Committee to be 7. The quorum of the Public Accounts and Regulations Committees to be 5, in each case.

Substitutions will be permitted in the four main committees and in the Estimates Committee, as follows:—

1. Where a member is unable to attend, he may arrange for a substitute.
2. A member who has a particular interest in the subject to be discussed at a meeting, may substitute for a member of the committee by arrangement with such member.

Such substitutions to be announced to the Chairman by the substitute members at the opening of the meeting.

On motion by Mr. Meen,

Ordered, That the Standing Legal and Municipal Committee be authorized to sit concurrently with the House as required.

To this Act the Royal Assent was announced by the Clerk of the Legislative Assembly in the following words:—

"The Honourable the Lieutenant Governor doth thank Her Majesty's dutiful and loyal Subjects, accept their benevolence and assent to this Bill in Her Majesty's name."

The Honourable the Lieutenant Governor was then pleased to deliver the following gracious speech:—

Mr. Speaker and Members of The Legislative Assembly of Ontario:

The Third Session of the Twenty-eighth Parliament of Ontario concludes at a time of deep concern on the part of all Canadians. The closing days of your deliberations have been conducted against a background of criminal challenge to the democratic system of government of our country that concerns all Canadians. The calm and responsible approach taken by this Legislature towards the actions of a small but significant number of men and women who attacked the people, government and democratic institutions of our neighbouring Province of Quebec, contributed substantially to the maintenance of the basic stability, strength and unity of Canada.

The events in Quebec give renewed impetus to the process of constitutional review, an acceleration fully supported by the Government of Ontario. At a federal-provincial meeting of leaders of Government in September, it was resolved to pursue fresh courses which it was hoped would accelerate the pace of the review and lead to the patriation of the British North America Act to Canadian jurisdiction.

The work of the Legislature was enhanced during the Session by the adoption of new Standing Orders, the first major revision of operating rules since 1939. The adoption of new rules for the question period, the consideration of departmental estimates by Standing Committees and the streamlining of procedures for consideration of Bills have greatly improved the efficiency with which you dealt with your business. I commend you for your initiative in revising so successfully your procedures.

The large number of measures which you have considered with diligence and energy during this heavy and rewarding Session assure the continued vigorous and dynamic growth of Ontario. I am pleased to note that you have scrutinized and approved the spending estimates of the various departments of the Government and have found the affairs of the Government to be in excellent order.

A balanced budget was presented providing a stimulus to the economy of our Province. Essential provincial expenditures were maintained. Provincial aid to municipalities and individuals was greatly increased without raising taxes. While achieving this, the Government also reduced taxes in the areas of succession duties and retail sales tax on production machinery.

Equally high priority was given to ensuring the stability of our economy, the creation of new jobs for our expanding work force and to substantially offset trends towards growing unemployment.

Highest priority has been given to tax reform and the relief of the municipal taxpayer. Thus, there were new programs of tax relief to needy pensioners and to farmers.

There was a large increase in provincial support for local education, road construction and maintenance, and municipal sewage disposal projects. In addition, the long-term program of tax reform was advanced by assuming the cost of property assessment, allowing municipalities to partially tax university properties and permitting the taxation of smelters in mining municipalities. These measures, along with such related activities as basic shelter grants and the assumption of the cost of the administration of justice by the Province, resulted in a reduction during the last two years of more than \$400 million in the property tax burden of municipal ratepayers.

During the Session, the Government continued its efforts to contain overall expenditures to avoid tax increases and to improve the efficiency of the operation of the Government. Within this overall policy of constraint, improved services in a number of priority areas were financed. A new mortgage fund was established to assist potential home owners in securing first mortgages for new buildings. There was a broadening of the benefits available under the Ontario Health Services Insurance Plan, a large increase in subsidies for day nurseries and substantial increases in many social assistance programs.

Measures to ensure the most efficient use of public funds were carried out on an overall Government basis and within each department. As but one example, these efforts resulted in one department reducing a major facet of its cost of operation by nearly 15 per cent.

To ensure that the machinery and management of the Government is the most efficient possible, the Committee on Government Productivity was appointed and is now well advanced in its tasks. Its first recommendations are expected to be made to the Cabinet in the near future.

Members participated in a full debate of the Ontario proposals for tax reform in Canada. This debate demonstrated that the Government and the Legislature are generally agreed on the objective of seeking a sound and workable national tax system which will fully serve Ontario taxpayers and be in the best interests of all Canadians.

In addition to proposals for the relief of municipal taxpayers, other initiatives were taken to ensure effective involvement of municipalities in the development of our Province and to assist them in providing more efficient service to their residents. In April, Honourable Members took part in the first Provincial-Municipal Conference, which inaugurated a new phase in the partnership between the municipalities and the Government. This Conference was followed by meetings between Ministers and a specially designated Municipal Liaison Committee.

In addition, measures were approved during the Session to permit the Ontario Municipal Improvement Corporation to purchase debentures, for any purpose, from municipalities of under 20,000 population so that these municipalities may provide a consistent level of service at a time when the capital market is experiencing some uncertainty.

Legislation was approved to create the Regional Municipality of York and the District Municipality of Muskoka. Local Government reviews were received for the Waterloo and Sudbury areas.

A number of significant policy initiatives were undertaken to establish a regional economic and land use policy in Ontario. One of the most important steps announced in the Legislature and discussed at various times during the course of the Session, was the presentation of "Design for Development: Toronto-Centred Region". This plan outlines a concept for the orderly and planned development during the final decades of this century for that part of Ontario within a 90-mile radius of Toronto. "Design for Development: North-western Ontario", a series of policy recommendations for the growth and development of the largest geographic region of the Province, was presented last month.

In response to the urgent need to prevent further deterioration of the environment, the Government took positive steps which will reduce pollution and enhance the quality of the environment. The Waste Management Act, which became effective on September 1st, gives wide powers to the Government to investigate waste management problems and establish disposal sites. To emphasize the urgency of municipalities, industries, utilities and institutions installing extensive pollution control equipment as quickly as possible, legislation was passed to provide both incentives and loans for pollution abatement equipment. Penalties applicable to those who pollute our waters were substantially increased.

The co-ordination of programs to control pollution in the Great Lakes is another urgent problem which occupied the Government and the Legislature. The Government provided international leadership to secure joint action between the Governments of Canada and the United States, our neighbouring Provinces and the eight Great Lakes States. The Great Lakes Environmental Conference, convened by the Government in September, recommended the extension of the powers of the International Joint Commission to deal with the Great Lakes pollution. An action committee of the States and Provinces is now co-ordinating these efforts in the Great Lakes Basin.

As further action within Ontario, the Department of Health and the Ontario Water Resources Commission carried out a systematic study of water quality and pollution in some of our more intensively used recreational areas. Recommendations have been made which will result in new requirements for disposal systems at summer cottages.

The policy of the Government to preserve the unique natural features of the Niagara Escarpment was placed before the Members. As a means of protecting this important recreational area, legislation was passed for the protection of the Escarpment and for the regulation of the location and operation of gravel pits and quarries on and adjacent to the Escarpment.

The intention to consolidate and co-ordinate in the reorganized Department of Citizenship of the many programs which assist and encourage the individual to become an active, contributing and involved member of our society was announced in the Speech from the Throne. Much of this consolidation has now taken place and the Total Citizenship Program has been launched. A Community Development Branch has been established to encourage greater participation and involvement of the people of Ontario in community affairs and in the decisions which affect their lives. In partnership with local municipalities and private agencies, experimental community information centres are being created.

Since the transfer of the Indian Community Development Branch to the Department of Citizenship, our native people are receiving substantial additional help towards greater social, economic and cultural development in their own communities.

The Government announced, during the Session, that significant changes will take place in the provincial health insurance program. The administration of hospital and health care insurance will be brought together in a single, integrated plan to be administered by a Health Insurance Commission.

Many of the principles recommended by the Honourable J. C. McRuer in his eminent study of civil rights have been enshrined in the Statutes for the benefit of the people of Ontario. Among these is the provision of public participation in the administration of The Law Society of Upper Canada as part of the continuing program of improvements in the administration of justice in Ontario.

During the course of this Session, approval was given to significant amendments to The Labour Relations Act to further harmonious relations between employers and employees. Careful consideration was given to the need to stabilize labour relations in the construction industry to ensure that union members are represented fairly at all levels and that the wishes of the members of Ontario's work force are accurately reflected in the process of collective bargaining.

Approval was given to the implementation of The Women's Equal Employment Opportunity Act to protect against discrimination in employment on the grounds of sex or marital status:

Additional benefits for Ontario's work force were enacted through The Employment Standards Act. The minimum wage was revised upwards.

The creation of The Ontario Educational Communications Authority is an important step forward in the extension of educational facilities in Ontario. Through its new Channel 19 television outlet in Toronto, the Authority is now able to provide a comprehensive schedule of educational programs to a significantly large segment of the population of Ontario in addition to providing educational programs to other television stations throughout the Province.

The proposal to reconstitute the Department of Mines as the Department of Mines and Northern Affairs was announced in the Speech from the Throne. In the intervening months, the Northern Affairs Branch was created to provide the people of Northern Ontario with a division of the Government geared specifically to their unique needs.

Two programs of special financial assistance to Northern Ontario were launched. In the first, the Northern Ontario Development Corporation was created to assist the expansion and development of business. In the second, a fund was created to provide loans to assist operators of tourist facilities to extend their season or winterize accommodation for year-round facilities.

During the Session, the Province entered into a new five-year Federal-Provincial cost-sharing Rural Development agreement. The new agreement holds great promise as a means of providing a fresh climate of opportunity for those members of our rural community who have been adversely affected by technological change.

A major legislative step was the adoption of The Business Corporations Act. The new Act completely revises and consolidates previous statutes dealing with incorporated businesses.

Other items of legislation affecting the business community were included in amendments to The Loan and Trust Corporations Act, The Insurance Act and The Investment Contracts Act. Amendments to The Consumer Protection Act clarified the obligation of a person who receives unsolicited credit cards or goods.

A new direction in the development of transportation policy took place during the Session. While the federal government has historically accepted jurisdiction in air, rail and water facilities, the Government of this Province recognizes the importance of these general areas to the people of Ontario in the continued development of this Province. The Government is putting forward the provincial interest in all current transportation and communications hearings.

Greater emphasis on the development of various types of transportation systems for use in Ontario, especially in urban areas, was evidenced during the course of the Session. The introduction of new GO-Transit experiments and the extension of Go-Transit service involving the use of buses are examples.

The objective of the Government is to create the most realistic and balanced transportation system available. To this end a new branch of the Department of Highways was created to evaluate immediate transportation needs, improve conventional facilities and to carry out research into and test experimental systems and future types of equipment. Municipalities were given greater financial assistance in the preparation of planning and engineering studies on all forms of transportation so that, in concert with the provincial studies, systems of transportation will be developed which meet the specific needs of the people of Ontario.

The highway construction program was advanced during the course of this Session, with the opening of Highway 144 linking Sudbury and Timmins, the official opening of the Thunder Bay Expressway, the continuation of the massive program to widen the Macdonald-Cartier Freeway and Highway 27 in the

Metropolitan Toronto area and the start on the East Main Street tunnel under the Welland Canal. In addition, major contracts were awarded for the Highway 417 freeway between Ottawa and the Quebec boundary and Highway 416 between the Macdonald-Cartier Freeway and Kemptville.

Among other legislative highlights of this Session were further amendments to liquor legislation, a program for the licensing and regulation of lotteries and the introduction of a plan under which the people of Ontario are assured of obtaining quality prescription drugs at reasonable cost.

One of the most exciting moments of the year occurred in Osaka, Japan, where, on July 16th, the people of Ontario were honoured on Ontario Day at EXPO 70. On that occasion—held by many to have been the outstanding “Special Day” of the Exposition—more than one thousand Japanese children participated, before an audience of some 10,000, in the demonstration of our friendship with all people of the world. I join with the people of our Province in extending congratulations and appreciation to the young hostesses, hosts, Ontario Provincial Police officers and the staff of the Ontario Pavilion at EXPO 70. They were extraordinary ambassadors of goodwill for Ontario and Canada. They contributed immeasurably to the spirit of harmony and goodwill which was evident throughout the 1970 world exposition.

The Third Session of the Twenty-eighth Parliament of Ontario was lengthy and fruitful. Legislation of great importance to the people of our Province was placed before you, scrutinized and approved.

By your actions, the residents of Ontario are assured of a richer, more fulfilling life.

In declaring this Session prorogued, I pray that under the guidance of Divine Providence each of you will have a safe and enjoyable holiday with your families and the people of your constituencies.

In our Sovereign's name, I thank you.

God bless the Queen and Canada.

The Provincial Secretary then said:—

Mr. Speaker and Members of the Legislative Assembly:

It is the will and pleasure of the Honourable the Lieutenant Governor that this Legislative Assembly be prorogued and this Legislative Assembly is accordingly prorogued.

at Our City of Toronto in Our said Province this fourth day of March in the year of Our Lord one thousand nine hundred and seventy-one and in the twentieth year of Our Reign.

BY COMMAND

JOHN YAREMKO,
*Provincial Secretary
and
Minister of Citizenship.*

Tuesday, the thirtieth day of March, 1971, being the first day of the Fourth Session of the Twenty-eighth Parliament of the Province of Ontario for the Despatch of Business pursuant to a Proclamation of the Honourable W. Ross Macdonald, P.C., C.D., Q.C., LL.D., Lieutenant Governor of the Province.

3 O'CLOCK P.M.

And the House having met,

The Honourable the Lieutenant Governor then entered the House and, being seated on the Throne, was pleased to open the Session by the following gracious speech:—

Mr. Speaker and Members of The Legislative Assembly of Ontario:

I extend warmest greetings and a sincere welcome to each of you.

Since this Legislature last met we have witnessed significant developments in the political life of our Province. On behalf of our Sovereign, I extend congratulations to the Prime Minister and cordial greetings to the new Ministry.

Je tiens à vous souhaiter à tous une bienvenue des plus chaleureuses.

Depuis la dernière réunion de cette assemblée, nous avons assisté à des changements importants dans la vie politique de notre province. Au nom de notre Souveraine, je présente mes félicitations au Premier Ministre et mes vœux les plus cordiaux au nouveau Cabinet.

The responsibilities of the new Ministry will be many. Challenges of a nature and complexity unknown to us only a few years ago now affect the daily lives of the people of Ontario, whatever their interests or pursuits, wherever their place of residence. A sense of rediscovery and re-appraisal reaches to the foundations of our society. We pray that the Members of this Legislature will be given strength and wisdom so that your decisions will yield greater benefit to all the people of Ontario and in so doing enhance the vitality, maturity and unity of Canada.

The demands and pressures upon us all during the Nineteen-Seventies will differ markedly from those of past decades. The men and women of Ontario are establishing fresh values to apply to the quality of their lives and to attain for their children a legacy which goes far beyond older criteria of attaining personal material goods. To this end the people of Ontario have indicated their preparedness to work, participate and make sacrifices.

This search for new values stimulates and challenges government to match the zeal of the citizenry. The structure of government must evolve accordingly so that the instruments of public service will continue to be perceptive and sensitive to the needs of the people and responsive to the requirements of responsible democracy. The Government and the new Ministry are committed to such evolution.

During this Fourth Session of the Twenty-Eighth Parliament of Ontario, the Government will place before you an extensive program in response to the requirements of life in Ontario during the Nineteen-Seventies. The Ministry will listen closely to the problems of the people and will act swiftly to resolve them. Policies will seek to expand and nourish individual initiative and private responsibility.

The current unconscionable levels of unemployment which have been forced upon the Canadian people will be combatted with every means at the disposal of this Provincial Government. The Budget will be presented on April 26th. Its purpose will be to restore the inherent vitality of our economy so far as this is within Provincial competence. This vitality is of extreme importance to the economic prospects of all areas of Canada.

Already several programs, providing twelve thousand immediate new jobs in Ontario, have been announced as part of the Government's drive to relieve unemployment. The resources of many Departments will be directed to providing further employment opportunities.

To combat unemployment and to provide for the needs of our people, the Government will commence a new home construction program. Using funds generated from the private sector and the Governments of Canada and Ontario, one half billion dollars will be injected into the economy of the

Province. This will establish a potential for one hundred and thirty-two thousand jobs during the next year, the construction of thirty thousand units of housing and shelter for ninety thousand people.

Summer employment for students will also require increased Government assistance. Programs have been created to enable students to demonstrate their personal initiative, respond to their concern about the environment and acquire funds which will permit their education to be continued. Some fourteen thousand young people will be employed this summer by the Ontario public service, a substantial increase from previous years. Among these will be two thousand participating in the Students Working in an Environmental Enhancement Program. As participants in this program, to be known as SWEEP, young people will clean up land, streams and lakeshores, plant trees and maintain parks.

Maintaining a healthy climate for both Canadian and foreign investors is essential to the economy of Ontario and the full employment of our working force. At the same time, the Government believes that the people of Ontario should have at hand the means whereby our own economic, cultural and social objectives and priorities are determined in Canada by Canadians. So that we may more clearly understand the effects of participation in our economy by non-Canadian investors and companies, and so that solutions in this clouded area do not race ahead of adequate and unemotional analysis, the Government will convene a conference on foreign investment. Representatives of all segments of the community and the federal and other provincial governments will be invited to take a full and active part in the deliberations. Through this conference the Government seeks to bring together the knowledge and experience available from all possible sources in the assessment of the implications of foreign investment.

Immediate steps will be taken to enhance opportunities for Canadians to participate in the development of Ontario. The Government will give preference to Canadian-owned businesses seeking grants and loans under the various incentive programs. To further encourage Canadian enterprise and ownership, a venture capital fund will be established to assist in the financing of small businesses which have exceptional potential but which involve greater risks than are acceptable to conventional lending institutions. Additional assistance will be provided to small businesses to develop technology and products. Increased emphasis will be placed on helping industries in such areas as environmental services, transportation and data processing.

Existing regulations and standards of the Ontario Development Corporation and the Northern Ontario Development Corporation are being revised so that assistance will be more readily available to small Canadian-owned businesses and to certain segments of our service industries. A program of immediate assistance has been launched to improve or relocate tourist establishments.

An advisory committee drawn from Canadian-owned industries will be formed to assist manufacturers in such matters as tariff policy, the changing structure of ownership of industry and multi-national corporate activities.

Detailed consideration of one area which could have a major bearing on our cultural development is now under review by the Royal Commission on Book Publishing.

To further preserve our heritage, Crown lands will henceforth be made available only on a lease basis. The Government will thus retain control over ownership. Canadians will be given preferential treatment when Crown land is to be made available for cottage lots. Canadians will have one year to lease the property before it is offered to others.

As the last decade has demonstrated and the Nineteen-Seventies will reinforce, the full enjoyment of our daily activities is closely related to conditions within our cities, ease of and access to transportation, equality of services in rural areas, adequate housing, readily available recreational facilities and the elimination of pollution. The Government will take those steps within its power to create an atmosphere in which a high quality of living and other special and enviable characteristics of life in Ontario are available to all.

Present programs will be intensified and new approaches will be sought to eliminate pollution and prevent further contamination. By court and other actions, the Government has already indicated its determination to enforce its policies and is examining other means by which those who pollute can be made to pay for the damage they create.

To achieve this objective, all provincial programs involved in environmental conservation, management and protection, will be brought together in one Department. Key branches of the Ontario Water Resources Commission, together with specific functions of the Environmental Health Services Branch of the Department of Health, will be integrated with the existing Department of Energy and Resources Management. All will be reconstituted as The Ontario Department of the Environment.

The Government proposes to introduce a comprehensive Bill to deal with all matters related to environmental conservation. Among the many benefits which will result from the creation of this new Department will be the ability to mount a stronger program to preserve our recreational lakes and rivers. Closely related to the new Department will be the appointment of an environmental council to investigate and report upon potential new pollution hazards.

The Government is determined to assure the adequacy of our energy supplies for the future. It will ensure that the energy is used efficiently as possible and that its use will not adversely affect the environment, health or life. The Government will strive to maintain a choice between the various types of energy to match them with those uses for which they are best suited. To this end, the Committee on Government Productivity has been asked to review the function, structure, operation, financing and objectives of the Hydro-Electric Power Commission of Ontario. The Committee has also been asked to advise the Government with respect to the long-range energy requirements of the Province.

The rapid and convenient movement of people, goods and information is central to the social and economic well-being of the residents of Ontario. The Government will give increasing consideration to the creation of functional, integrated and balanced transportation systems, encompassing those types of public and private transportation best suited to the needs of each area.

To accomplish this objective, the existing Departments of Highways and Transport and the facilities and services of the Ontario Northland Transportation Commission will be brought together in a Department of Transportation and Communications. The new Department will develop and employ ways to move large numbers of people and goods and stimulate the economic growth of the Province while being more sensitive to the environmental and aesthetic sensibilities of our people.

The Department of Transportation and Communications will be called upon to achieve a better balance between public transit, commuter services and motor vehicle traffic. It will take steps to integrate road, rail, air and water services throughout the Province. It will continue to expand and improve our road system. Special emphasis will be given to the total transportation system of the larger cities and their surrounding commuter areas. To help accomplish this, assistance will be given municipalities for the development of transit facilities.

An immediate function of the new Department will be to undertake a review of the costs of transporting goods into and out of Northern Ontario.

The Department of Transportation and Communications will also develop a telecommunications policy for Ontario. This policy will ensure that the interests of the people of Ontario are fully represented in the developments associated with radio and television broadcasting, educational television, cable and special-purpose video, data transmission systems, telephone and telegraph services, and the use of the Telesat communications satellite.

The provision of a sound and efficient system of education is essential to the well-being of the people of Ontario. During the last decade, unprecedented expansion was required to meet an enrolment which doubled during a span of fourteen years. Very large expenditures were needed for additional accommodation, more equipment and larger teaching staffs. During the Nineteen-Seventies the population of our schools can be expected to drop somewhat, allowing the Government to concentrate its efforts and resources on the quality of our educational system and to ensure that every child will have the opportunity to achieve his or her full potential.

A major development will be the concentration of all post-secondary education within a reconstituted Department of Colleges and Universities. The responsibilities of this Department will include, in addition to Universities, Colleges of Applied Arts and Technology and such other institutions as Ryerson Polytechnical Institute. Ryerson, which over the years has grown in stature and achievement, will be authorized to award a new type of degree which will reflect a pattern of accomplishment in which work experience is required in addition to the regular program of study. This would appear to be consonant

with the main thrust of the work of the Commission on Post-Secondary Education. The Government looks forward to receiving, within the year, the report of the Commission dealing with the further development of post-secondary education in Ontario in the Nineteen-Seventies and Nineteen-Eighties.

It is imperative that our resources be husbanded so that full value is received for the investment made in all levels of education. Current restraints are now stabilizing the operating costs of the school system. As the Province assumes a greater share of the local cost of education and provides increased money to post-secondary schools, further steps will be taken to ensure that our financial resources are used to the best advantage to provide a continued high standard of education. This is a goal that is both essential and practicable.

The Government is concerned about the problems encountered by the people of rural Ontario as our countryside changes in response to population pressures, technology, urbanization and recreational demands. Steps will be taken to resolve the difficulties related to farm assessment and inequities in property taxation. To help relieve these inequities, the Government will continue its efforts, in co-operation with its municipal partners, to lighten the burden of real estate taxes. The capital grants program of the Department of Agriculture and Food will be expanded and revised to more adequately reflect the requirements of Ontario farmers.

One of the crucial tasks in the coming decades will be to ensure that the land of the Province, particularly in and around urban and recreational areas, is preserved in the interest of future generations. The Government intends to create a new land bank program. This will be a major instrument in the implementation of regional development, recreational, housing, transportation and urban development plans.

It is the Government's conviction that the expanding regulatory and administrative apparatus of the state must be accompanied by continually expanding safeguards for the civil rights of individuals. Measures to further enshrine such rights in the Statutes of Ontario will be brought forward. These will be related to procedures and the rights of individuals before the boards, commissions and tribunals established by the Legislature and the exercise of administrative discretion.

The Government will accelerate its program of consumer protection to provide assistance and guidance to our people in dealing with today's complex market place. Uniform inter-provincial legislation is being developed, as are policies and practices in the area of consumer protection, securities and insurance legislation.

New policies designed to promote a more efficient, economical and comprehensive system of delivery of health services will be brought forward during this Session.

In a society which has concentrated on material and economic growth, the development of our culture must also be encouraged. Living in Ontario are people of virtually every national and cultural heritage, including our native people, all sharing their strengths with others to create a dynamic multi-cultural family of people. The Government proposes to convene a congress of ethnic culture to encourage greater communication and inter-action between all groups within the Ontario family and between these groups and the Government.

Government can be successful in serving its constituents only if it is able to adapt and respond to their needs. Fundamental changes are planned to enable the Executive Council to meet the challenges of the Nineteen-Seventies and beyond and will be based to a substantial degree upon the detailed analysis now being undertaken by the Committee on Government Productivity.

Initial attention is being given to the activities and structure of the Executive Council itself. To confer reasoned flexibility upon its policy-making and management capacities, a number of committees of Cabinet will be created to deal expeditiously with the co-ordination of policy in a number of related areas. Two major committees will be established by statute. One will deal with policy and priorities and will ensure by continual review that established policies and expenditures remain relevant to the needs and wishes of the people. This committee, assisted by a strengthened secretariat, will provide a vehicle to deal thoroughly with specific policies. The other committee will incorporate advanced management techniques and the traditional role of The Treasury Board. In this way the Legislature will be guaranteed levels of administrative accountability and executive competence fully commensurate with the sophistication and complexity of these times. In addition, a small number of functional committees of Cabinet will be created to better integrate the multitude of Government programs in broad fields of policy.

The changes in departmental responsibilities which have been described are the beginning of a restructuring of the departmental design of the Government of Ontario which will be undertaken in the months and years immediately ahead.

Priority will continue to be given to constitutional review. The Ministry will work with other governments to produce early agreement on a revised constitution and mechanism of amendment which will be fully compatible with the needs and conditions of Canada in the Nineteen-Seventies and beyond.

A highlight of this Session will be the opening of Ontario Place, now being completed on man-made islands in Lake Ontario. Ontario Place is a showcase of the achievements and aspirations of the people of our Province. It will be a major cultural and recreational centre for all of Ontario. At the request of the Government, I extend a warm invitation to all Members of the Legislature and all residents of Ontario to join in ceremonies on May 22nd to officially open Ontario Place.

As this address has indicated, the new Ministry is fully aware of the existence in Ontario of many problems of a serious and urgent nature. Measures to deal with these matters have been described.

In conclusion, I ask the Members of this Legislature to assign proportion and balance to their assessment of problems by remembering the enormous evidence of accomplishment that is the handiwork of all the people of Ontario. In Ontario, successive Ministries have created machinery and implemented programs which have contributed substantially to the advancement of our society. More importantly, each individual has combined his intellect, skills and labour in the eternal search for a better and more rewarding life for all. But in acknowledging our problems, let us also take pride in our accomplishments. Let us have confidence in our capacity to meet the challenges of today and tomorrow.

May Divine Providence guide you in your deliberations.

God bless the Queen and Canada.

His Honour was then pleased to retire.

Before the Orders of the Day, Mr. Speaker addressed the House as follows:—

Last week the Member for Riverdale asked me to have research done to disclose whether it could be said to be a practice of this House that Ministers of the Crown be not included in the membership of the Standing Committees. This has now been done and I am pleased to share with the Members the interesting results of such research.

In 1946 the membership of Ministers on Standing Committees was quite large; twelve on each of two committees, ten on two others, nine on four, eight on one and four on two. It is to be noted that the Prime Minister of the day was a member of all Standing Committees. This practice and pattern continued for some years and it is interesting that in 1949 when the Standing Committee on Privileges and Elections was very active, it was under the chairmanship of the Honourable Leslie M. Frost, the Treasurer. In 1950 there appeared to be some effort to reduce the size of the committees. However, the number of Cabinet Ministers on such committees was still very high, only two having as few as two Ministers and several having six and seven. The Prime Minister of the day was on two committees. In more recent times it is to be noted that the number of committees had grown to seventeen and that there were still as many as six and seven Ministers on several of the committees. Moreover, the number of Ministers on the other committees actually appeared to have increased since 1950. It was in the session of 1964 that the practice of omitting most Ministers from the committees started. I am advised that the reason for this was that the committees were smaller and the striking committee felt that the Ministers, who might find difficulty in attending because of their work load, should give place to the private members who were anxious to serve. However this was certainly not a consistent practice as Ministers have served on committees from time to time since that date.

No foundation can be found for the contention that it is a common parliamentary practice to omit Ministers from membership on committees. It is obvious that in jurisdictions where the balance between the government side and the opposition is close, it would be impossible for the government party to man the committees if Ministers were excluded. It is interesting to observe that in Manitoba it is not only the practice to include Ministers on committees in the present closely balanced Legislature, but, in fact, this has always been the practice since the creation of the province. An even more interesting practice is that in the past almost all standing committees in Manitoba have been chaired by members of the Cabinet and in the present Parliament this practice continues, at least with the committee charged with legal affairs which is chaired by the Attorney General.

It seems to be the antithesis of our parliamentary system to suggest that Ministers should not be on committees. Under our system they are chosen from among the Members of the House so that they will be responsive and responsible

to the House and to bar them from one of the most important functions of the House would be inconsistent. It must be remembered that the Ministers have a dual function, and that as Members of the Assembly they have the same duties, rights and privileges as all other members.

The Order of the Day for Second Reading of Bill 10, An Act to amend The Farm Products Marketing Act, having been read,

Mr. Stewart moved that the Bill be NOW read a second time, and a debate arising, after some time,

The motion having then been put was declared to be carried.

Before the Order of the Day, Mr. Speaker delivered the following ruling:

Last week I was asked to look into the question of the powers of the new Standing Committees of the House, as authorized by Order of the House dated Wednesday, March 31st.

Before specifically referring to the new Committees, it seems desirable to review to some extent the powers and duties of the Committees prior to the new Order, with general reference to the Committee system under the Parliamentary system. Committees, both Standing and Select, under the Parliamentary system, as opposed to the congressional system, have always been confined in their activity to matters referred to them by the House. I draw your attention to the wording of the motion authorizing the Committees in previous Sessions, which said "which Committees shall severally be empowered to examine and enquire into all such matters and things *as may be referred to them by the House*, and to report from time to time their observations and opinions thereon". In a limited number of cases this reference was automatic; for example, the Public Accounts of the Province stood automatically referred to the Standing Committee on Public Accounts, as this was the purpose of the Committee's appointment. Similarly, when in recent years a new Committee was established on Government Commissions, after specifically referring certain Boards and Commissions to the Committee at several Sessions, it became a practice of the House to regard all Boards and Commissions as standing automatically referred to that Committee on its appointment. When the new Committee on Regulations was established by statute in 1969, that statute specifically provided that all Regulations stand referred to that Committee on its appointment, with certain limitations, but also provides that the Committee "shall deal with such other matters as are referred to it from time to time by the Assembly". It will therefore be seen that under the previous system, while the limited subjects heretofore alluded to were automatically referred, any other matter required specific reference by the House before a Committee could examine or report thereon. It has been alleged several times that Committees instituted programs on their own initiative. This suggestion is not accurate. Committees did, from time to time, have informal programs, provided by the Departments, for the information of Members, but these were, as stated, informal, and could not in any way be described as investigations, nor did they carry any authority to report.

Coming now to the new Committee setup, as authorized by the Order of March 31st, 1971, when the proposal for this new setup was drafted for the Standing Orders Committee last Session, two types of reference were recognized. First, the Public Accounts and Regulations Committees remained unchanged and reference is automatic as previously mentioned. Secondly, to replace the previous Government Commissions Committee, Boards and Commissions reporting through designated Ministers were automatically referred to three of the four main Committees, that is, the Legal Administration Committee has automatically referred to it all Boards and Commissions coming within the scope of the Departments of Financial and Commercial Affairs, Justice, Labour, Municipal Affairs and Provincial Secretary and Citizenship. The Human Resources Committee has automatically referred to it all Boards and Commissions within the scope of the Departments of Correctional Services, Education, Health, Social and Family Services and University Affairs, and

the Natural and Physical Resources Committee has automatically referred to it all those Boards and Commissions coming within the scope of Agriculture and Food, Energy and Resources Management, Highways, Lands and Forests, Mines and Northern Affairs, Tourism and Information and Transport. All other matters—and I quote—“may be referred in the discretion of the House”. This appeared to be clearly understood when the Resolution to authorize the Committees was debated at considerable length on March 31st, and unanimously agreed to. In any event, on re-examination, the provisions of the Resolution do not appear to be open to any question; they seem to be abundantly clear.

To summarize in brief, the Boards and Commissions of the named Departments are referred to the Committees without further action by the House. Any other matter requires specific reference. *However, I must say, and I consider this very important, that I can see no objection to a Committee, by a majority, passing a motion asking the House for authority to investigate a certain matter, or have a specific matter referred to it. It would then be brought into the House as a specific recommendation from that Committee and could be debated and decided in the House. If decided in the affirmative this would, of course, constitute the necessary referral of the matter to the Committee.*

Mention has been made several times of the action of the Natural and Physical Resources Committee on Wednesday, April 14th. It appears on information from the Chairman and Clerk of the Committee that no formal motion was, in fact, made. Simply, on the suggestion of the Member for Huron-Bruce, it was agreed to ask the Ontario Food Council to come before the Committee. In any event, whether or not there was a formal motion, the Ontario Food Council is, I take it, one of the Boards which comes under the Department of Agriculture and therefore stands automatically referred to that Committee.

On a point of order it was asked why the Human Resources Committee did not report the motion passed last Wednesday. Had the motion been worded as I have suggested, to ask the House for authority, and the motion had been passed by the majority of the Committee, it would of necessity have been brought to the House as a recommendation from the Committee for decision by the House. However, as it proposed action by the Committee without reference to the House, there was, I suggest, nothing to report. It is not the practice to report every motion passed in Committee, but only those that make a recommendation to the House or require some specific action by the House.

Finally, the Member for York South quite vigorously insisted I should state whether or not the Prime Minister has the right to make a unilateral ruling as to whether or not any matter is in order. The answer is obvious—neither the Prime Minister or any other Member has any such right, but when the Prime Minister or any other Minister is asked a specific question in the Question Period, he has, of course, the right to answer such question as he sees fit.

The Order of the Day for resuming the Adjourned Debate on the Amendment to the Amendment to the Motion for an Address in Reply to the Speech of the Honourable the Lieutenant Governor at the opening of the Session, having been read,

Before the Orders of the Day Mr. Speaker addressed the House as follows:—

On Thursday, April 15th, in response to a request from the Member for Riverdale, I made a statement with respect to the participation of Ministers of the Crown in Committees of the House.

In my previous ruling reference was made to the practice of the Province of Manitoba and the question was asked why other jurisdictions were not included. In answer to this suggestion, communication has now been made with all other jurisdictions in Canada, with the following result:—

In Newfoundland Ministers are always on Committees. While at the time that communication was made the Standing Committees for the present Session had not yet been struck, it is interesting that three of the five Members of the Striking Committee are Ministers. There also exists at the present time a Select Committee on Fisheries, of which two of the seven Members are Ministers.

In Prince Edward Island Ministers are always included in Committees, usually at the ratio of two out of six.

In Nova Scotia, on the latest Public Accounts Committee, there are two Ministers, and on other Committees there is usually one Minister out of seven Members.

In New Brunswick Ministers are on all Committees, except the Public Accounts Committee, usually at a ratio of one Minister in every four Members.

In Quebec Ministers are on Committees, the only ruling being that a Minister may not be Chairman of a Standing Committee.

Manitoba was covered in my previous ruling.

In Saskatchewan there is no hard and fast rule. Ministers are on some Committees in the same way as other Members of the House. At the present time there are three Ministers on the Education Committee out of twenty-four; five of the twenty-six Members on the Law Amendments Committee are Ministers; one Minister is on the eleven-man Public Accounts Committee; two of the five Members of the Select Striking Committee are Ministers.

In Alberta it is the regular practice to have Ministers on Committees. At the present time seven out of twenty-five Members of the Privileges and Elections Committee are Ministers; seven out of twenty-five on the Law and Regulations Committee; six out of thirty-five on the Public Accounts Committee; seventeen out of sixty-four on the Public Affairs, Agriculture and Education Committee, and nine out of twenty-eight on the Private Bills and Printing Committee.

In British Columbia Ministers are put on the Committees as a matter of course, on the same basis as other Members of the House.

Even in the House of Commons of Canada, where the very large number of Members makes the participation of Ministers less necessary, there is no hard and fast rule. While Ministers are omitted from the majority of the Committees, there are very frequent occasions when Ministers are included.

The Member for York South appeared to think that there was some reason for starting the previous research into the practice of this House in 1946. As I explained at the time, this was done simply because 1946 marked the even quarter century. However, to resolve the Honourable Member's doubts, research has now been completed from Confederation, and it has been found that the participation of Ministers in the years from 1867 to 1945 has been consistent. For example, in the Session of 1867-68, there were four Standing Committees in which Ministers were represented in the numbers 5, 3, 3 and 1, the Prime Minister being on three of these Committees. It is also interesting that the Prime Minister chaired the Striking Committee. In the Session of 1868 the number of Standing Committees was increased to five, the new Committee being the Public Accounts Committee, on which the Treasurer was a Member, and the Prime Minister continued to sit on three Committees. Over the ensuing years the pattern remained consistent, Ministers being represented on almost all Committees, and the Prime Minister very often being a Member of many Committees. In the Session of 1923, during the Drury Ministry, it is to be noted that the whole Cabinet were Members of the Private Bills, Municipal Law and Public Accounts Committees. During the Liberal regime of the 1930's and early 40's, the practice remained unchanged. The Prime Minister was on all Committees and the whole Cabinet was on the Public Accounts Committee.

The following Bill was read the second time:—

Bill 28, An Act to amend The Planning Act. *Ordered for Committee of the Whole House.*

The House resolved itself into a Committee to consider a certain Bill and, after some time therein, Mr. Speaker resumed the Chair, and the Chairman reported,

That the Committee had directed him to report the following Bill with one amendment:—

Bill 28, An Act to amend The Planning Act.

Ordered, That the Report be now received and adopted.

The House, according to Order, resolved itself into the Committee of Supply.

- to implement meaningful tax reform which would relieve the burden on lower and middle income groups including farmers;
- to establish realistic programs to improve the environment, to increase housing, and to stimulate northern development.
- to develop a simple method of stimulating employment by reform of Ontario Development Corporation and reduction of sales tax on production machinery and building materials rather than the proposed costly, cumbersome procedure which fails to encourage Canadian manufacturers and for which there is no evidence that future net gains in employment will result;

- to propose a program of co-operation with the government of Canada and other provinces to achieve the goal of strengthening national unity, national tax reform, and the modernizing of our Constitution rather than embarking upon a course of fiscal separation from the other provinces and the Federal government ;
- to be bound by arbitration in connection with Civil Service salary negotiations, and the arbitrary fixing of a maximum rate of increase in advance of any such negotiations.

- to introduce the principles of a municipal foundation plan into the system of unconditional grants for regional municipalities;

PRAYERS

2.00 O'CLOCK P.M.

Mr. Hodgson (Victoria-Haliburton), from the Standing Private Bills Committee, presented the Committee's Report which was read as follows and adopted:—

Your Committee begs to report the following Bills without amendment:—

Bill Pr11, An Act respecting the Town of Mississauga.

Bill Pr20, An Act respecting the City of Woodstock.

Bill Pr39, An Act respecting the City of Peterborough.

Your Committee would recommend that the following Bill be not reported, and that the fees, less the actual cost of printing, be remitted:—

Bill Pr35, An Act to incorporate Association of Natural Resources Technicians of Ontario.

Your Committee would recommend that the following Bills, having been withdrawn, be not reported;—

Bill Pr31, An Act respecting Morton Terminal Limited.

Bill Pr37, An Act respecting the County of Halton.

Your Committee would recommend that the time for presenting Reports by the Committee be extended to Thursday, the 10th day of June, 1971.

Mr. Speaker delivered the following ruling:—

“On Tuesday last the Member for Scarborough West attempted, under the Routine Proceedings, to move a motion to refer certain matters to a Standing Committee. I ruled that this motion could only be accepted as a Notice of Motion for the Notice Paper, to be called in the usual way in the Private Members’ Hour. The Member for Windsor West suggested that this did not apply to motions moved under the Routine Proceedings. I have now carefully examined our Standing Orders and had an opportunity of comparing our procedure in this area with that of the House of Commons of Canada. I find their procedure is identical with ours in that, as the word routine implies, only routine motions with respect to the management of the House can be moved under this Routine Proceeding. As the definition of such routine motions is not specifically covered in our Standing Orders, I find the Canadian House of Commons Standing Order 32, subsection 1, clause (p) helpful. It refers to motions “made upon Routine Proceedings, as may be required for the observance of the proprieties of the House, the maintenance of its authority, the appointment or conduct of its officers, the management of its business, the arrangement of its proceedings, the correctness of its records, the fixing of its sitting days or the times of its meeting or adjournment.” I was also very interested to discover that my ruling of Tuesday last is supported completely by a ruling of the Speaker of the House of Commons of Canada on Tuesday, May 2nd, 1961. In that case Mr. Martin, Member for Essex East, seconded by Mr. McIlraith, moved, “That the Annual Report of the Governor of the Bank of Canada to the Minister of Finance and Statement of Accounts for the year 1960 be referred to the Standing Committee on Banking and Commerce for study.” After reviewing the Standing Orders and the precedents as found in Bourinot and Beauchesne, the Speaker ruled that the only course open to a Private Member to bring in such a motion, is to use the Notice of Motion procedure, which involves the giving of written notice—48 hours in their rules. The notice would then appear on the Order Paper to be dealt with in accordance with their Standing Orders. Two of Mr. Speaker’s quotations from Beauchesne I found to be particularly helpful, as follows:— Firstly, “It is a fundamental rule that with the exception of certain matters dealt with under Routine Proceedings, no question can be considered by the House unless it has been previously appointed either by a notice or a regular order of the House.” Secondly, “All motions referring to the Business of the House should be introduced by the Leader of the House.”

For these reasons I find that my ruling on Tuesday was correct, and that only routine motions, as described, can be moved under the Routine Proceedings, by the Government, and should be moved by the House Leader. It is true that on two occasions recently, motions by Ministers to refer matters to Standing Committees were accepted under this procedure, but I have no hesitation now in saying that that was incorrect. Some justification might be offered as they were quite brief motions in general terms, moved by the Ministers whose Departments were concerned, in answer to requests from the Opposition. However, I now serve notice that, in future, such motions, even from the Government, will require the usual notice, will be placed on the Notice Paper under the heading “Government Motions”, and, of course called in the discretion of the House Leader, as provided in Standing Order 24. In any event, I do not consider the two recent cases to which I have referred as forming a precedent for the introduction by a Private Member of a lengthy and complex resolution, such as that posed by the Member for Scarborough West, and I confirm my previous ruling that this must go on the

Notice Paper as provided by Standing Order 32 (a), and could only be called in the Private Members' Hour, as provided in Standing Order 26 (a). While it has been generally understood in this House that the routine procedure MOTIONS was available only to the Government, and then only for certain types of motions, there has never been a very clear line drawn between motions moveable under this procedure and motions which require notice. I am hopeful that the foregoing explanation and this ruling will clarify this situation."

SEVENTY-NINTH DAY

MONDAY, JULY 26th, 1971

PRAYERS

2.00 O'CLOCK P.M.

Before the Orders of the Day, Mr. Speaker delivered the following Ruling:—

On Friday last, during the discussion following the attempted presentation of the Public Accounts Committee Report, a suggestion was made that there is some inconsistency between my ruling with respect to this Report and rulings previously given respecting rulings by Chairmen of Committees. So that the record may be straight, I point out to the House that the two matters are completely unrelated, as a ruling by a Chairman of a Committee is made in the Committee and any appeal from such ruling is to the Committee, not to the House or the Speaker, just as in the House an appeal from the Speaker's ruling is to the House. However, when the Committee has passed a Report and the Chairman presents that Report to the *House*, the matter has then been brought within the purview of the House, and if the manner of presenting the Report offends the rules or precedents of the House in any way, then of course, the matter must be dealt with by the House and by Mr. Speaker as the presiding officer. I believe the Members will appreciate the difference and realize that there is no inconsistency in the way that these two separate and distinct situations have been dealt with.

The House resolved itself into a Committee to consider certain Bills.
